## House of Open Planning From Small Homes Guide

This is the bedroom facing the living-terrace at the rear of the home. With folding door closed, the large master bedroom is divided, providing a guest room—with its own closet. Or, this extra room can be used as a den, as a TV room, game room—in short, an all-purpose additional room.

The living-terrace photo snapped by the magazine's photographer for the cover of the 34th edition of SMALL HOMES GUIDE looked so inviting that the editors asked Architect Elmer Gylleck to design a special house, with a patio area just like the one on the cover.

Here is the house Architect Gylleck came up with. The plan is for a three-bedroom home, two of the bedrooms being separated by a folding door that allows them to open up into one big room.

Open planning is strongly featured in the living-dining area. There is a low planting wall between the breakfast nook and the dining room, enhancing this feeling of openness. Another feature is living room access to the front bedroom, permitting it to be used without disturbing other rooms.

Although the house does have a basement, the laundry has been brought up into a more convenient location for the housewife—near the kitchen. Additional bath facilities have been provided with a washroom off the utility room.

Note the special small room provided at the end of the garage for homeowners with green thumbs. This plant room can be a cheerful place, full of greenery and blooms. A door gives quick access to the outside garden area in the summertime.

The floor area of this house is 1,613 sq ft. For information on blueprints and their cost, write to SMALL HOMES GUIDE, Dept. 1613, 621 N Dearborn Street, Chicago 10, Ill.

A registered Guernsey cow, Meetinghouse Lane Bell Donora, owned by H. H. McConnell, Honey Brook, Pa., has completed an official production record in the Advanced Registry division of the American Guernsey Cattle Club.

This record was for 8,503 lbs of milk and 465 lbs of fat, which is equal to 4100 quarts of high-quality milk.

"Donora" was a junior two year-old and was milked two times daily for 305 days while on test.

This official production record was supervised by Pennsylvania State University.

J W McCoy, Osborne Hill Farm, West Chester, Pa., six entered Osborne Hill Theda's Jingo, Osborne Hill Russie's Jessie, Osborne Hill Keepsake's Ayah, Osborne Hill Chell's Jingle, Osborne Hill Elva's Connie and Osborne Hill Factor's Cue.

The Navy recently unveiled its anti-aircraft missile, the "Terrier," aboard the guided missile cruiser Boston.

## Local News from the American Guernsey Cattle Club

PETERBOROUGH, N. H. — Howard D., Esther M., John A. and Robert E. Wagner of Quarryville, Pa., have reserved the prefix "McCreary Creek" for use in naming their purebred Guernsey cattle, according to the American Guernsey Cattle Club.

This new prefix has been placed on file with the Club, and from now on they will have exclusive use of it. In fact, "McCreary Creek" will be their trademark in the Guernsey world.

The American Guernsey Cattle Club is a non-profit agricultural registry organization serving some 40,000 purebred Guernsey breeders from coast to coast.

Dr. George T. Pack, Lauxmont Farms, Wrightsville, Pa. has entered four purebred Guernseys

in the 1958 National Guernsey Futurity, according to the American Guernsey Cattle Club.

The 1958 Futurity is the second in an annual series which was recently initiated by the AGCC's executive committee. Estimates say the probable value of the purse for this event will exceed \$3500 by judging time.

Animals are entered in a Futurity as heifer calves, and are eligible for final competition only as owners pay two additional eligibility fees. They are judged as three-year-old cows.

R. D. Stewart, AGCC secretary says the Futurity is a tremendous challenge to the ability of purebred Guernsey breeders to select heifer calves that will develop into top-notch three-year-olds.

Nominations for the 1958 Futurity closed March 1, 1956.

The animals entered by Pack include: Lauxmont Tomahawk's Boyce, Lauxmont Dorothy Kirsten, Lauxmont Bright Scioto, and Lauxmont Actor's Contralto.

Other entries include Charles P. O'Connor, Applebrook Farm, West Chester, Pa., six Applebrook Prediction Melba, Applebrook Prediction Clover, Applebrook Prediction Gracious, Applebrook Prediction Elva, Applebrook Peer's Levity and Applebrook Peer's Radiant.

## State Flying Farmers Busy During Spring

It's not only planting time for Flying Farmers in the Garden Spot, but it's a busy season for get-togethers and visitors, according to L. L. Logan, state president of the Pennsylvania Flying Farmers Association.

Ken Butler, Hutchinson, Minn., vice president of the National Flying Farmers association, and Hal Clark, national secretary from Wichita, Kan., visited the Logans recently, staying overnight and going over a number of matters pertaining to the Pennsylvania and National Flying Farmers Associations.

The two midwesterners were caught in the weekend snowstorm and had to discontinue their flight east at Indianapolis. Taking a train into Harrisburg, they went on to Williamsport to visit Bill Piper. There Mr. Piper loaned them a Tri-Pacer for the rest of their travels in the east.

Returning, the two men ferried a new Piper back to Indianapolis and picked up their own plane. While here they saw movies of the National Convention made last summer by Mr. Logan, and of other state activities.

Recently Pennsylvania Flying Farmers presented Gov. George M. Leader a beautiful plaque for honorary membership in the Pennsylvania Flying Farmers Association, Russell M. Pisor, state president from Porterville, Pa., made the presentation at the Harrisburg Sportsman's show.

The Federal government is preparing to begin the long-delayed trial of William Z. Foster, titular head of the Communist party of the United States.
