

Three Holstein Herds Cited on Production Mark

The Holstein-Friesian Association of America, Brattleboro, Vt., announced the completion of official production records by registered Holstein cows owned by:

Harry S. Aungst, Marietta — Quinte View Elsass, 14,646 lbs milk, 585 lbs butterfat, milked two times daily, 365 days. Average quarts daily 19. Age when record began: six years, two months.

Robert C. Groff, Quarryville — Kay Princess Rag Apple, 13,344 lbs milk, 460 lbs butterfat, milked two times daily, 349 days. Average quarts daily 18. Age when record began: three years, three months.

J Z Herr, Elizabethtown — Herlandia Lady Hanna, 17,277

lbs of milk, 547 lbs butterfat, milked two times daily, 300 days. Average quarts daily: 27. Age when record began: ten years, five months.

The Pennsylvania State University supervised the weighing and testing of this record which is part of the Herd Improvement Registry of The Holstein-Friesian Association of America. The program provides individual lactation and lifetime production records on every registered Holstein cow in the herds enrolled. Such records are valuable tools in the constant selection of individuals, families and bloodlines which must accompany a successful dairy cattle breeding program.

EGGS

PHILADELPHIA, April 18 — (USDA)—Market barely steady. Increased supplies were more than adequate for the fair demand. Current receipts moved in small lots at 38½-39c. A fairly liberal volume moved into storage.

Wholesale selling prices: minimum 10 pct AA quality large 45-48 lbs white 42-42½, brown 40-41 Extras, minimum 60 pct A quality large 45-50 lb white 41½-42, mixed 41-41½, medium white 40-41, mixed 40-40½, medium white 40-41, mixed 40-40½ Standards 39-40, checks 32-35.

(Receipts April 17 — 5,900 cases all by truck.

New spring and summer bags seem to be flatter and more elegant. The favorite shape seems to be envelopes and flat, squared-off shapes. Gloves are wrist-length or eight-button. Pale tones in stockings go with the new pale tones in shoes. Sheer meshes look well with spectators, sandal-foot stockings with sandals.

Plastic materials will be used for bags and shoes even more than last year. Women like the lack of care these plastics require. Plastic, enforced with steel, is being fashioned into eye-catching heels for all types of shoes.

Norway and Switzerland won ski events for their first gold medals in 1956 Winter Olympics.

DO-IT-YOURSELF HOSPITAL
WINCHESTER, Kan. — After three years and a great deal of elbow grease, Winchester, a town of less than 400, has a new 25-bed hospital. A total of \$112,500 was raised almost entirely by the townspeople and neighboring hamlets and more than 200 volunteer pitched in to help build the building. Farmers, preachers, teachers and even college boys and girls hauled bricks, cleared ground, poured cement and did just about everything.

Horses sold from \$80 to \$138 in the farm implement and livestock sale conducted by the Isaac Y. Lapp estate near Intercourse.

Cows brought \$120 to \$238, feeding steers \$18 cwt, sheep \$22 to \$34, a brass kettle \$9, low-down wagon \$97.50, riding plow \$90, grain drill \$165, side delivery rake \$100.

Rutt Holstein Leads Red Rose DHIA 305 Days

The highest 305-day lactation in February was completed by a Registered Holstein owned by George Rutt, R1, Stevens. This Holstein produced 16,543 lbs of milk and 645.4 lbs of butterfat. The second high 305-day lactation was completed by a SH-31 "Pabst" daughter owned by Job Stoltzfus, R2, Elverson. This Registered Holstein produced 19,973 lbs of milk and 638.7 lbs of butterfat.

The herd having the highest monthly butterfat average for the month of February was that of Harry H. Ranck, R1, Ronks. This herd averaged 1572 lbs of milk and 57.1 lbs of butterfat. Second-high average was that of 1456 lbs of milk and 52.7 lbs of butterfat by the herd of Jay E. Landis, R6, Lancaster.

The highest monthly butterfat producer was a Registered Holstein owned by John G. Stumpf, R7, Lancaster. "Skylark" was milked three times daily and produced 2435 lbs of milk and 114.1 lbs of butterfat. The second high butterfat producer was also owned by Mr. Stumpf. "Betty" was milked three times daily and produced 2332 lbs of milk and 109.6 lbs of butterfat.

The shoe of middle color value is back. The most important color range is beige, very pale to medium tan. Pastel shoes with matching costume or a harmonizing costume will be good for late spring and all summer. In shape the new shoes will be smooth-looking, unadorned pumps with folded top lines and straighter sides. Both toes and heels are slimmer. Spectator pumps are coming in for a big revival and strap pumps are still news.
