REICHARD'S HI-AVAILABLE LIQUID FERTILIZER

Here Are A Few Important Advantages

- * SAVES LABOR — No extra hands needed. The backache is gone. No bags to lift. Frees time for other farm chores.
- * SAVES TIME — 16 to 20 acres per hour with ordinary equipment. Apply in any kind of weather to get crops planted in time.
- * MORE EVEN APPLICATION — Positive control of rate of application gives more even distribution. Even growth of crops for easier harvest.
- * QUICKLY AVAILABLE TO PLANTS — No waiting for rainy weather for soil conversion. Plants respond fast in dry weather.
- * NO CAKING OR CLOGGING — Equipment last longer. Non-poisonous. Not hard on hands or eyes.
- * NUTRIENT UNITS SAME IN LIQUID — As in dry fertilizer. A complete plant food with the same N-P-K content as a comparable analysis of dry fertilizer.
- * NO STORAGE PROBLEMS — Formulas can be mixed on short notice. Large storage tanks on our premises. Orders filled almost immediately.
- * LOWER TOTAL FERTILIZER COST — All handling and material costs considered you pay less for an equivalent amount of plant response. Cost is identical with dry fertilizer.

AVAILABLE in all recommended analysis
APPLY yourself or by Custom Application

Reichard's Liquid Fertilizer

Can be delivered in bulk to your farm and readily applied. No mixing is necessary as it is a complete plant food formulated to your needs. C. M. Weaver maintains equipment for custom application of liquid fertilizer, manned by experienced operators. Details may be had upon inquiry.

IF YOU PREFER . . . ALSO AVAILABLE REICHARD'S GRANULAR FERTILIZER

Reichard's Granular is the same Animal Base Fertilizer you have depended on for years. There is no change in its formula. The ingredients remain the same. The only change is that it is made in granular form for easier, more convenient handling and application. It remains the premium fertilizer at regular fertilizer prices.

USE THIS FAST ACTION DRY FERTILIZER!

Here are some important reasons —

- Faster more even application
- Freer flowing
- Less corrosion of equipment
- No caking or clogging
- No drifting or dusting
- Easier handling
- No fertilizer left in bags
- Complete formula in every granule

AVAILABLE IN ALL RECOMMENDED ANALYSIS.

Easy "Do It Yourself" Method Of Application

This is all you need!

Tractor Mounted Sprayer....1000 Gallon
"Nurse" Tank....Two Drums

The minimum equipment necessary to do a thorough, efficient job of applying Reichard's Liquid Fertilizer is a tractor mounted sprayer, a 1000 gallon "nurse" tank and 2 drums.

The boom sprayer may be used for weed killer and insecticide spraying. This gives you additional use of the equipment throughout the growing season.

The sprayer can be serviced by a 1000 gallon "nurse" tank skid mounted on your truck making easy removal possible and permitting truck to be free for additional farm jobs. The nurse tank can be used for hauling liquid fertilizer from the factory, hauling water and spraying materials or storage.

Two drums mounted on the tractor can often be obtained without cost.

You are not making an investment in equipment to do only one job but as pointed out above many farm operations may be included — the more uses, the lower the cost.

C. M. Weaver, New Holland RD2, Box 315

I am interested in learning more about how I can save labor, time and money by using Reichard's Hi-Available Liquid Fertilizer on my farm. Let me have details without obligation.
