

Tomatoes Roll Into Stations:

(Continued from Page One)

which has been erroneously reported in past years.

Approximately 2,000 acres are under cultivation for the Rawlinsville operations. The yield is running about 60 baskets to the ton, and farmers have been receiving an average of over \$100 per ton.

For Shipment South

At the packing stations the matured tomatoes are washed, waxed and graded, then packed in 60-lb bulk containers and loaded directly into trailers ready for shipment to Georgia, Florida and other points. Nearly 50 women and men are employed at the Rawlinsville plants.

PROCESSED POULTRY

PHILADELPHIA AUG 8 — (USDA) Processed poultry ready to-cook (ice packed) young chickens barely steady. Demand fair. Buyers had wide selection as offerings were quite liberal from distant producing areas. Prices paid delivered warehouse, Philadelphia (Cents per lb)

Grade A & U S Grade A, 1 1/2 lbs 32 1/2-33, 2-3 lbs 33-34, mostly 34

Caponettes steady. Adequate supplies were available for the good demand. Prices delivered warehouse 4 1/2 lbs and up 42 cents

The cotton picker who described watermelon as one of the three best things in the world, all starting with "W," might have something.

The green tomatoes will eventually be pinked and ripened in temperature and humidity controlled rooms, repacked, and sold to various chain food stores throughout the country.

Checking in Tomatoes

Tomatoes pour into receiving stations all over Southern Lancaster County. Here a truck is unloaded at the plant on the Park Eshelman farm near Rawlinsville (Lancaster Farming Staff Photo).

It's The Law

"It's the Law" with simple answers is offered by LANCASTER FARMING in cooperation with the Pennsylvania Bar Association. General interest questions are welcomed, and will be answered as soon as possible. Letters must be signed. Answer will not be published on a specified, requested day. Questions cannot be answered by mail, and LANCASTER FARMING will reject any inquiry which is not of general public interest. Address all inquiries to "It's the Law," LANCASTER FARMING

Quarryville, Pa. (Fictitious initials will be used to protect the identity of the questions).

Q Can a hunting club which is incorporated fine or reject a member if he has not participated in the hunt for three or more years? I am part owner of the cabin and grounds and have personal property there the year round. W.B.N.

A. It is impossible to answer your question without a thorough knowledge of the club by-laws. If there is a provision in the by-laws providing for the fining or expulsion of a member or non-participation, it is probable that this procedure could be accomplished by the club. Whether or not this would have any effect on your property rights in the cabin and on your personal property left on the club grounds cannot be determined without examining the by-laws. It would be well to discuss all the facts with your attorney who can then advise you as to your rights.

Q What is the legal standing of a home owner in a case where a leaking automatic hot-water boiler completely ruined rugs and various furniture in a basement? The company furnished a new boiler and admitted it leaked due to a defect. The home owner paid for installation of the new boiler.

A. Damages for breach of warranty include all losses which naturally and probably resulted from the breach, or defect in the goods sold. It would appear that you have a cause of action against the supplier for the damage to your rugs and furniture, and you should press this claim immediately. However, it may be that you waived these damages by accepting a new boiler and paying for its installation. All pertinent details should be discussed with your attorney promptly.

Farm Surplus Nil in Decade, Horst Advises

With annual increases in population and decreases in tillable acres, there is little chance such

MILES HORST

a thing as a farm commodity surplus may exist within 10 years.

Such is the forecast of Miles Horst, special assistant to U.S. Secretary of Agriculture Ezra Taft Benson. An annual population increase of three million against an annual loss of a million tillable acres to housing developments and factories will bring the problem of surpluses to the vanishing point, Mr. Horst said.

The former Lebanon County resident, once Pennsylvania State secretary of agriculture, addressed a group of 250 farmers attending the 30th anniversary celebration of the L. J. Denlinger-feed merchant establishment in Paradise Saturday afternoon.

As a surprise feature of the meeting, Aaron H. Denlinger was presented a citation award by McMillen Feed Mills, which named him "an outstanding master feed merchant."

Others speaking included Bill Wilson of Hubbard Farms, Inc., on poultry management; Charles Dietrich, Willow Street, representative of McMillen, and Robert H. Rife, district sales manager for McMillen, who made the award to Mr. Denlinger.

We have never yet seen a minister beat up one of his congregation in church, so the fear of physical abuse need not keep you from attending church.

NEW! FORD MOUNTED CORN PICKERS

2 ROW
FITS FORD'S NEW
700 AND 900 SERIES
TRICYCLE TRACTORS

1 ROW
FITS ANY FORD TRACTOR,
TRICYCLE OR 4-WHEEL
(Plus Several Other Makes)

Both Models Fully Tractor Mounted . . .

You'll find many new, exclusive features in the new Ford Mounted Corn Pickers including the Corn Saver Snapping Unit that can cut usual shelled corn losses in HALF! These new Ford Corn Pickers are easy to mount on the tractor, easy to operate, and what's more, you'll find they get more corn even under tough conditions.

See them now!
