

For Farm Women . . .

(Continued from page eight)

One-half teaspoon cream of tartar

Pour bottom part into unbaked pie shell and top with crumbs. Bake at 375 degrees for about 30 to 40 minutes. This pie is similar to the Shoo-Fly Pie but we like it better.

Recipes and household hints from down Kirkwood way, too, Mrs. Ralph Wimer of R1, who writes

Here is another homemaker who enjoys Lancaster Farming so very much, especially the recipes. I have a book full of the recipes and try one occasionally.

Lancaster County Farm Women 11 Hosts To Farm Society 10

Lancaster County Society of Farm Women No. 11 entertained Society 10 at its regular meeting Thursday afternoon two weeks ago in the Quarryville Fire Hall. A very large group attended. Mrs. James Retzer presided and the meeting opened with group singing.

Devotions were in charge of Mrs. Rudy Eshleman. Salute to the flag was given. Response to roll call was "The dumbest thing I have ever said or done."

Minutes of the previous meeting were read and approved. The treasurer, Mrs. Harry Shank, reported. Bills were ordered paid. It was voted to give \$5 to the American Bible Society. Mrs. William Bucher, chairman of the trip committee, told about the trip to Washington and Mount Vernon on Wednesday, Aug. 8th. After the business meeting, the program chairman announced three plays. These plays were humorous and well given. Oscars were won by Mrs. Ammon Huber for the best producer and Mrs. Theodore Mathias for the best actress. Several articles were auctioned off to the highest bidder. A short talk was given by the County president, Mrs. Robert Nolt, also by Mrs. Ethel B. Rheinhold, president of Society 19, Mrs. Robert Wecksel, of No. 15, and Mrs. Park Reinhart of No. 20.

Delicious refreshments were served on long tables and everyone reported a wonderful time. The August meeting will be in the basement of Chestnut Level Presbyterian Church House.

Society No. 11 was entertained in Oakryn at the Fulton Grange Hall Thursday by Society 21.

cut in pieces

One onion, sliced
Place in baking dish and heat in oven till thoroughly heated, and it is ready to serve

Also, from Mrs. Wimer, a recipe for

PINEAPPLE PIE

Large can of crushed pineapple
Two tablespoons corn starch
Two egg yolks
One-half cup sugar
One-fourth teaspoon salt
Cook this in double boiler till thick and clear, stirring constantly
Add
One tablespoon butter
One tablespoon lemon juice
Pour in unbaked pie shell
Two egg whites, beaten
Add
Two tablespoons sugar
Put meringue over pie filling and brown in oven at 350 degrees.

Or if you prefer, you may weave pastry strips across the top instead of meringue

SEVEN APPENDECTOMIES

Northridge, Calif. — Within 22 days, six members of the James Loveless family underwent appendectomies. Loveless, 34, a policeman, followed five of his six daughters to have his appendix removed. His wife, Mrs. Sue Loveless, had her appendix removed three years ago. Only Francine, 3, still has her appendix.

I also have a kitchen hint, Mrs. Wimer writes, which I think is very good.

KITCHEN HINT

When making a pie such as raisin pie, which usually bakes out in the oven, cook raisins and thicken and let cool before putting in pie. No more messy ovens.

That's about it for now. Keep those cards and letters coming — we love 'em — so until Friday a week, that's all for now until we'll

Beef Roast Excellent Buy for Freezer Use

The smart shopper with space in her home freezer will find beef cuts a buy, according to Elsie Bamesberger, extension consumer education specialist of the Pennsylvania State University.

There's a seasonal lag in demand because of heat-jaded appetites. Blade chuck or rib roasts in many markets beckon consumers to buy them for freezer storage.

Another reason for buying beef — U.S. Choice grade beef is in unusually good supply now.

Egg Profits fresh from the sea

POULTRYMEN realize there are two vital points in the use of fish meal and fish solubles for poultry rations. Properly processed Menhaden fish meal, as bought for Beacon feeds, is a rich source of natural proteins, vitamins and still unidentified health factors.

The two vital points are . . .

1. That the fish be quickly processed while still fresh and that the most modern steam-dried methods be used to preserve full feeding values.
2. That enough be used in the feed formula to do the job. Not just enough to list on the tag as an ingredient but enough for the optimum nutritional needs of the chicken.

The reason there is more feeding value per pound of Beacon feed is . . .

- A. Beacon uses high quality ingredients throughout the skillfully blended formula.
- B. The Beacon formula contains generous amounts of the critical and most important nutrients.

It all means higher value per pound of feed. Thus birds need eat less feed for equal or better results. Since feed consumption is less you can expect lower cost per dozen eggs. At the same time you have TOP nutrition for health, low mortality and long season sustained production.
