

Tomato Crop at Unicorn

Workers add more baskets of tomatoes to the lines on the farm of Paul Herr near Unicorn, bringing the average this year to way above 15 tons per acre. Mr. Herr says his fields still have green tomatoes, less frost comes, earlier. From left to

right are Leborio Vasquez, Blosinio Santiago, Condelario Torrez, Veroforio Rivera and Reinil Rodiqui of Patillar, Puerto Rico. Mr. Herr and his son Gordon are at right (Lancaster Farming Staff Photo). and picking may continue until Oct 15 un-

Farm Game Project, Plantings Aid Farms Over Pennsylvania

Thousands of Pennsylvania farmers who are cooperators in the Farm Game Project program have improved their land by planting trees, shrubs and grasses provided by the Commission as part of its end of the bargain.

Sportsmen provide the money for the seedlings and seed out of taxes they pay on the purchase of sporting arms and ammunition.

Naturally, wildlife and the hunter's lot are improved because game production increases with the added food and cover

on the fields and woodlots of the cooperators

Farmers in the 166 projects, located in 49 of the 67 counties of the state, are aware that the cover plantings serve good purposes on their lands as well as for wildlife because they halt erosion and hold water on the land

These are good reasons why the Cooperative Farm Game Project program, viewed from any angle, is hard to beat.

Jacqueline Gutwillig, Republican campaign committee worker

"In the country there is a potential of 2,000,000 more women than men. That's a big margin, and a big responsibility"

Canadian Waterfowl Seasons Announced; Ontario Now Open

This information of interest to Pennsylvania hunters who journey to Canada in fall to enjoy waterfowl shooting comes from the Ontario Department of Lands and Forests

"Announcing the 1956 open seasons and bag limits for migratory birds in Ontario, the Honorable Clare E. Mapledoram . . . reminded sportsmen that a new departure in the regulation of migratory bird shooting will be made this year

"Formerly these birds would be shot one half hour before sunrise on the opening day. This privilege was widely abused, with the result that this year the season does not open until noon. Once the opening day has passed, nimrods can hunt in the pre-sunrise and morning periods as before"

The release says that ducks, geese, rails, coots, gallinules, woodcock and Wilson's snipe, may be hunted northern district, noon Sept 15 to Dec. 15, central district, noon Sept. 29 to Dec 15, southern district, noon Oct 6 to Dec 15. There is one exception. In Essex County the open season for geese is from noon Oct 6 to Dec 31, incl.

Stauffer Farms Hamps Win at Reading Fair

Stauffer Homestead Farm, R1, East Earl, exhibited their breeding herd of Hampshire Swine at the Reading Fair and in the Pennsylvania State Hampshire Swine Show, in connection with the Reading Fair.

They were awarded Reserve Champion on their barrow entry in a class of 27 of all breeds. This barrow also won the blue ribbon in the Hampshire barrow class of 15

Their herd also won six blue, eight red and four yellow ribbons in the other Hampshire classes

There were over 150 Hampshire entries and the State Hampshire Show was one of the largest held in recent years.

Stauffer Homestead Farm is owned and operated by Mr. and Mrs. A. B. C. Groff of New Holland, Pa. Earl S. Fisher is the farm manager and John D. Arndt herdsman.

It's NEW...
It's SENSATIONAL

CASE

"95"

Easiest Pulling
Big Spreader

You haven't seen what's really new in a manure spreader until you see the Case "95." It's built stronger than any spreader you've ever seen, yet it proves its light draft on uphill pulls with small tractors or in slippery fields where traction fails for ordinary spreaders. The same synchronized Beaters and Roller Chain Drive that lighten draft also lengthen spreader life, save on upkeep. Come in—see this big 95-bushel wood-box Case Spreader now.
