Statistics show that most accidents in the home result from carelessness. Something can be done about this!

Ladders are a "must" in every household, and should be used when washing windows, hanging curtains and cleaning walls and ceilings, etc. Many hard falls have resulted from a housewife using a chair or stool to perform such jobs.

The burners on gas stoves should be completely turned off when not lighted for use. Pilot lights should be high enough to remain burning even when gas is low.

When children are in the kitchen, be sure that all of the pots cooking, are pushed to the back of the stove out of their reach. Train children to pick up and

put away their toys. Never allow toys to remain scattered over the floor as this is one of the greatest household hazards known.

Provide an attractive chest decorated with nursery figures as a storage place. Make the child feel that this chest is his and gives him a feeling of responsibility for his toys and the important job of keeping them in place. Reminded often enough and in the proper way, most children will respond.

Stairways should always be well-lighted and uncluttered.

Keep such things as razor blades, knives and scissors well out of children's reach.

Mark all poisons and store where there is no chance of children or adults getting them by mistake.

Securely fasten window screens to keep children from falling out. Build gates at the top of porch steps or indoor stairways as an added safety measure for children.

Very highly polished floors are not safe for young or old and are particularly dangerous where scatter rugs are used. It is not wise to apply wax on the floor under a scatter rug

Woodcock Scarce;

Reports on hunting results in Pennsylvania, prior to the Oct. 20 opening of the season for grouse, wild turkeys and squirrels, were as follows:

Woodcock: Native birds plentiful. Most had left the state. Mild weather is delaying arrival of flight birds, when the timberdoodle shooting should improve.

Ducks: Good reports from the northwest and southeast. Average to less than normal in most other areas. Early season shooting reported as better on creeks and dams than on rivers. Dyed-in-wool waterfowl hunters are awaiting arrival of migrating birds from the north, when their sport will improve.

Pedestrian: "Yes, and some of you motorists drive as if you owned your cars."
