

CLIPPER CLIPPED

KALAMAZOO, Mich. — A man entered Eugene Scott's barber shop and announced, "Give me a good haircut or I'll hit you." After getting the clip, the unidentified customer clipped Scott on the nose, saying, "I've paid a lot of barbers in the same way for giving me a bum haircut." With that, he walked out, leaving Scott holding his hurt nose — and the bag.

**Most Powerful
Mastitis Treatment
EVER!
ROCKLAND'S
SUPER
PENT-A-CIN**

DISPOSABLE INJECTOR

1,000,000 UNITS OF PENICILLIN!

... Plus other potent antibiotics

Here is the "big brother" to regular Pent-A-Cin — we believe veterinarians will regard as the final answer to difficult mastitis cases. Never before has such a powerful dose of antibiotics been formulated to fight mastitis.

Penicillin G Crystalline Potassium and Procaine Penicillin G — 1,000,000 units combined — have been included to make Super Pent-A-Cin go to work fast, yet provide the all-important sustained action. Equally as important, Neomycin has been added to overcome organisms which tend to become resistant to antibiotics. Dihydrostreptomycin and sulfa drugs round out the potent formulation.

For Multiple-Dose Treatment
ROCKLAND'S DIAL-A-DOSE:
Features five regulated 12cc doses of improved regular Pent-A-Cin. Disposable injector and 5 disposable tips.

OTHER SINGLE-DOSE TREATMENTS

PENT-A-CIN INJECTOR:
Regular Pent-A-Cin in disposable 11-gram injector with powerful antibiotics and sulfa drugs.

PENT-A-CIN TUBE:
Popular 7.5-gram tube with the outstanding formulation of 500,000 units of Penicillin.

Wishes Come True for State 4-H'ers

The perennial wish of Pennsylvania 4-H Club members — state honors and a trip to the National 4-H Club Congress in Chicago — came true this year for three teenagers whose 1956 records of performance were superior in the National Boys' Agricultural, Poultry, and Girls' Home Economics programs.

For best performance in the 4-H Boys' Agricultural Program, Richard Grubb, 19, of State College was named state winner. In addition to gaining a broader knowledge of agricultural practices, he installs in others a pride and respect for agriculture.

Throughout his 10 years in 4-H work, Richard carried many projects, including chickens, steers, swine and corn. He borrowed money to start his first project, but has repaid the loan and now plans to finance new

profitable. His broilers were White Americans, which were raised for Chicken of Tomorrow contest. He has won many awards on his poultry, including one blue, one white, two red ribbons.

Harold served as president, vice president and news reporter of his local 4-H Club. His father was his 4-H leader.

The parents of Alice Jean King of Monaca are mighty proud of her winning the 1956 state honors in the 4-H Girls' Home Eco-

Richard Grubb Harold Harpster Alice Jean King

Club members on their projects. Richard won numerous awards and ribbons, and held the office of president in his local Club, led by Jack Kocher. Donor of his trip is International Harvester, which has supported 4-H work for more than 35 years.

In a manner of speaking Harold Harpster's hen laid the golden egg that turned into a week's expense-paid trip to the Club Congress. Living on a farm near Boalsburg this 19-year old chalked up a remarkable record in the 4-H Poultry program. Sears-Roebuck Foundation, is donor of his award trip.

Now in his 10th year of Club work, Harold has dealt mostly in capon poultry and has raised New Hampshire White Giants, and Rock cross. He later raised broilers and found them very

profitable. Putting into practice what she learned not only enhances family living, but prepares this 17-year old for her role as future homemaker.

Alice Jean's eight years in Club work includes serving teas, giving parties; preparing meals and snacks, and making lamps and flower arrangements. She redecorated her room, making bed spread, flounces, drapes, painting the room, and refinishing several pieces of furniture.

Alice Jean attended 4-H camp for seven years, and was a junior counselor for two years. Mrs. R. W. Hartenbach is her local 4-H Club leader. Her Club Congress trip is made possible by Montgomery Ward.

All these programs are conducted under the direction of the Cooperative Extension Service.

**Leader to Open
1957 Farm Show
In Harrisburg**

HARRISBURG — Governor George M. Leader will officially open the 1957 Pennsylvania Farm Show on the evening of the first day of the exposition, Monday, January 14.

State Agriculture Secretary William L. Henning, chairman of the Farm Show Commission, said today the 41st show will be formally dedicated at that time to the theme — "Pennsylvania Agriculture Builds for Tomorrow." The Governor then will introduce the mounted unit of the Pennsylvania State Police for their annual display of horsemanship before a capacity standing room crowd of 10,000.

The coming show will have many new features for crowds expected to exceed half a mil-

lion during the five full days and four nights that the mammoth exposition will be open, free to the public, starting at 8 a. m. on January 14th.

In addition to the State Police riders, other evening events in the Farm Show arena include the 12th annual rural talent festival with 800 participants on Tuesday evening, Henning said. Staged again by W. L. Gordon, Pennsylvania State University agricultural extension service, the pageant carries the title "We Have It — In Pennsylvania," depicting the present and future scope of the Commonwealth's agriculture.

The annual state championship horse pulling contest is scheduled for Wednesday evening, January 16. On Thursday the annual 4-H Club and Future Farmer tractor driving contests will be followed by a spectacular parade of prize winning livestock.

Christmas trees and hay will be entered in competition for the first time at any Farm Show, making a record total of 27 departments. When the champion Christmas tree is selected by judges it will be given a place of honor in the front lobby of the main exposition building.

The Farm Show Commission is offering a record total of \$58,556 in premiums under 9,942 placement classifications, also a new record.

USDA Buys 46,818

Cases of Eggs to

Help Stabilize Price

WASHINGTON — (USDA) — The U. S. Department of Agriculture reported purchase this week of 46,818 cases of medium-size shell eggs under a special program to help stabilize producer prices during the fall seasonal increase in marketings. Purchase since buying began in late September now total 434,253 cases.

With purchases to date sufficient to fill current distribution, USDA stated that future purchasing will be kept in line with distribution outlets which will probably run in the neighborhood of 50,000 cases per week.

Price ranges per dozen for purchases this week (week beginning Nov. 12) by geographical regions and number of carlots (average of 480 cases) for each region follow: Northeast 38.23 to 39.70 cents for 10 carlots, Mid-

Flower Shows Possible Any Time of Year with Living Room Pot Garden

Are you a part-time gardener who wants a full-time garden? Most of us are but few of us know how to go about accomplishing a colorful garden year around. The secret lies in mastering the art of pot gardening.

You will find that pot gardening enables you to stage your own show any time you wish. You grow or buy plants in pots or tubs and move them into your garden when they reach full bloom. Another advantage is that you can weed out scrawny plants and replace them with vigorous plants with little or no

trouble. Pot-gardening requires lots of planning, but you will find it more than worth the trouble. There is a great advantage in being able to create your flower picture after the plants are in bloom.

If you plan a sequence of blossoms, you could start with daffodils, tulips, petunias and chrysanthemums. If you like the effect, next year you could try crocus, daffodils, tulips, petunias, zinnias, and chrysanthemums. This will give you color from March through October.

**"The time to feed a cow
for MILK PRODUCTION
is when she's
DRY!"**

...says Purina Research

Strange as it sometimes seems, dry cow feeding is a true course to milk production and long cow life.

Extra body weight and built-up reserves of strength resulting from a good dry cow feeding plan put a cow in shape to deliver a big, strapping calf and go right to work on a long, steady lactation the day she freshens.

Purina on-the-farm research tells us that 100 lbs. extra body weight on a dry cow means up to 2000 lbs. more milk in her next lactation... in addition to the benefits of health she gains.

Purina D and F (dry and freshening) CHOW is tailor-made for dry cow feeding. It contains ample quantities of body-building nutrients to build both cow and unborn calf during this critical period. It contains minerals for strong bones, vitamins for health.

Properly fed, quality Purina D & F Chow not only gives cows a big head start on their next lactation... it keeps them in condition to breed again and again and again... for long, profitable, healthful productive life.

See us for details of dry cow feeding the Purina way TODAY!
