

Red-Banded Leaf Roller Resists Pesticides

A recent report from Cornell University says that a third major insect pest of apples in New York State, the red-banded leaf roller, is showing resistance to pesticides in some orchards. Last year, according to Cornell scientists, it took eight times more DDD to kill resistant strains of the red-banded leaf roller than in a non-resistant population in an or-

Cut rates and below-cost prices rarely help the individual who thinks he gets an advantage thru them.

chard where DDD or DDT had not been used until very recently. In earlier years the European red mite has shown resistance to parathion and TEPP and the codling moth resistance to DDT in New York orchards, according to Cornell entomologists.

THE NEWLY FORMED FFA Chapter at Warwick Union High School at Lititz is making quail hutches for Elwood Jordan, Lititz, as a chapter project. Here Jim Adams, R1 Lititz, (left) and Vincent Becker, R3 Lititz, put in stripping for doors. Jordan raises the quail as a hobby. These hutches will hold two or three pairs of birds until nesting time. (LF Photo)

Tester recognition—Paul Wenger, Jacob Hoover and Eli Martin.

Auditors — Everett Brubaker and Elvin Hess, Sr.

Entertainment—Donald S. Eby, John Herr, George Rutt and Martin Zimmerman.

OLIVER No. 22-B MOWER
Hooks up Easily...Cuts Clean

The Oliver No. 22-B mower cuts easy and clean. It takes tangled or matted spots with a swish. Strong and rugged, you can depend on the 22-B mower to get your crops down fast season after season.

The flexible, hinged drawbar on the 22-B mower allows free up and down movement. The mower follows the ground contour freely without wrenching or binding. And, the two-wheel, semi-mounted design gives you greater maneuverability and easier handling.

Come in and see the Oliver No. 22-B mower. Inspect the dust-tight, oil-bath, chain-drive transmission... the safety latch that swings back the cutter bar when an obstacle is hit... the new compression bar that adjusts for proper cutter bar "lead"... the new light-handed raising lever that's within arm's reach from almost every make tractor. Available with hydraulic lift, too.
