

AT THE SPABC ON LEASE from the W. L. Van Alen farm, Newton Square is the proven Jersey sire, Lilac Remus Unrivald Owl Gano. Gano has nine daughters aver-

aging nearly 10,000 pounds of milk on a mature basis carrying a 5.2 per cent test. He also has nine daughters that have classified Very Good

SPABC Gets Two New Bulls; Both Sire High Producing Daughters

LANCASTER — Two new bulls have moved into the Southeastern Pennsylvania Artificial Breeding Cooperative barn in the past two weeks. They are a Guernsey, Black Hole Hollow Valor's Majesty, and a Jersey, Lilac Remus Unrivald Owl Gano.

The new Guernsey, an eight year old, comes to the cooperative from Cambridge, N. Y.

His pedigree shows Foremost breeding on top and Qual Roost on the bottom. His sire is Foremost Royal Valor 14th and his dam is Position Maxim's May. She has the highest record in the breed in the 2x-C division having produced 19,646 pounds of milk and 1,085 pounds of butterfat as a nine year old in 365 days while meeting calving requirements.

A proven sire, he has 12 daughters that have exceeded their dams records by 1,305 pounds of milk and 87 pounds of butterfat with an increased test of .14 per cent.

Two of these daughters are class leaders in milk and butterfat production and five more are class leaders in butterfat.

Three daughters in the Guy Leader herd, York, have been classified very good and desirable.

The new sires code number will be SG-49. He will not be put into service for approximately 30 days extensive health tests are being conducted as a matter of routine.

Gano has come to the co-op on lease arrangements with W. L. Van Alen, Newton Square. Produced principally in the Van Alen

herd, he has nine daughters averaging nearly 10,000 pounds of milk on a mature basis carrying a 5.2 per cent test.

Type classification-wise, Gano through his daughters average an outstanding 85.3 points. Sixteen of his daughters have freshened and were all included in the classification study, nine of which were officially classified Very Good and the remaining seven a Good Plus. As a note of interest, all 16 daughters were classified Very Good in the breakdown of Dairy Character, Body Capacity and Chest.

Bred at Bringham Farm, St. Albans, Vt., he is a son of the Senior Superior Sire, Lilac Remus Unrivald and out of the 781 pound Ton of Gold daughter of Sybil Ashburn Baronet Owl, who, in his own right, is a Senior Superior Century Sire.

He is a three-quarter brother to Woodside Gamboge Remus (SJ-20), a sire that established an enviable production record here and in Maryland.

BEING UNLOADED LATE last week is a new Guernsey sire to be introduced into service at the Southeastern Pennsylvania Artificial Breeding Cooperative. He is Black Hole Hollow Valor's Majesty, a son of Foremost Royal Valor 14th and out of a class leading dam, Position Maxim's May. May has the highest record in the breed in the 2x-C division (LF Photo)

World Cattle Estimate At 937 Million Head

The number of cattle in the world increased to an estimated 937 million head at the beginning of 1957, according to the Foreign Agricultural Service. This is about one per cent above 1956, 20 per cent above the 1946-50 average, and 24 per cent above the 1936-40 prewar average.

World sheep numbers also continued to increase last year. The total, estimated at 919 million head, is two per cent above the previous year, 29 per cent above the 1946-50 average, and 23 per cent above the prewar average.

unloads by itself... automatically Gehl's new PTO forage wagon

Take it easy—save time—with Gehl's new self-unloading PTO forage box. It's really automatic... just sit on the tractor seat and watch it unload silage, hay or green pasture. Simply hook up the PTO and watch it empty quickly, evenly, into blower or feed bunk. This Gehl forage box costs less than others—and if you build it from the easy-to-follow instructions you'll save an extra \$200 in labor costs. Gehl's Hopper Blower costs less than conventional blowers... amount saved pays cost of lumber. Come in and see one, either ready-made or as a metal parts kit. Get your free plans and lumber list now.
