

## Federal Milk Hearings Set

(Continued from page 1)

vania. Class I prices established under the separate orders have been rather close and because of basic differences in according and classification the Federal order has been generally effective in establishing prices to producers. These prices have helped to provide an adequate supply of milk for the Philadelphia market.

In January 1957, the class I price under the Commission's order was substantially increased to a level 45 cents per hundred-weight over Federal order price. In February March it was 41 cents over and since April 1 has been 51 cents over.

### STATISTIC

"Drinking an ounce of alcohol increases a drinker's chance of an accident 1000%." U. S. News and World Report, June 14, 1957.

When we read about teenage drinking the first reaction may be to blame the bartender for selling to minors. It isn't always his fault. Some kids look older than their years. Besides, he is a salesman, and there's plenty of competition for customers! To ask a bartender to conduct much of an investigation is like expecting an elephant to fly. Actually much youthful carousing roots right at home. A recent police survey in the Chicago area showed that much of the beer and whiskey for high-school age drinking parties came from the liquor supplies of parents and relatives.

"When my folks go out, I call the liquor store and have it delivered to the house," said one boy, "Once in a while I have it added to my dad's bill and sometimes I pay for it myself."

"The bottles are open and they never miss a little out of each jug" said another, explaining how he filled a soft drink bottle from his father's bar in the basement. And of course there is the old dodge of finding a "bum" to buy a bottle, with a bribe of a swig or two for himself.

But mostly, according to the Chicago TRIBUNE report, the blame belongs on the doorstep of the drinking parent.

## Farm Calendar

### Today

Farm Implement Dealers Assn.—7 p. m. at Rhoads Spanish Tavern, Quarryville.

### Saturday

Heart to Heart Women's Rally — 2 p. m. in Hempfield High School Building at Landisville. The theme of the meeting is "Women for Christ." Provisions made for small children. Plenty of parking. Mrs. Stoltzfus the speaker, is "Your friend Ruth" of the local Heart to Heart Radio Program.

### Monday

4-H Leadership School at Penn State University.

County Agents meeting on pond management — 1.30 p. m. at the Jacob N. Martin Farm, R2 Lancaster.

Elm - Penryn 4-H Club — 8 p. m. at Penryn Fire Hall.

Millersville - Columbia 4-H Clothing Club — 1.30 p. m.

Farmersville 4-H Clothing Club — 1.30 p. m.

East Drumore 4-H Clothing Club — 1.30 p. m.

Delaware Poultry Producers Tour of Lancaster County — all day.

### Tuesday

Milk Marketing referendum — 8 a. m. to 3 p. m. Polling places are Farm Bureau Cooperative, Lancaster; Farmer's Bank building basement, New Holland; Hostetter's Mt. Joy; and Lincoln Fire Hall.

Wheat inspectors certification meeting — 10 a. m. at field research laboratory, R 1Manheim. Cyrus Campbell, Bureau of Plant Inspection, and Frank Bamer, extension agronomist will present the program.

Manor 4-H Club—8 p. m. at the home of Elvis Myers, R1 Millersville.

Kirkwood 4-H Food Club — Penryn Clothing Club and Rohrerstown Lets Pack a Lunch Club — 9.30 a. m.

Fulton Food, Silver Springs Foods Elizabethtown Foods, and Little Britain Clothing 4-H Clubs — 1.30 p. m.

Oregon - Rothsville Learn by Doing and When You Step Out 4-H Clubs — 7.30 p. m.

### Wednesday

Seed Producers Field Day — 1.30 p. m. at Field Research Laboratory, R1 Manheim (near Landisville). Elmer Reper, O. D. Burke and S. E. Raleigh will present the program.

Muddy Creek 4-H Club — 8 p. m. at the home of Norman Lausch, R1 Denver.

Lincoln Clothing and Drumore Foods 4-H Clubs — 9.30 a. m.

Litzitz Town 4-H Sewing Club 1.30 p. m.

Wards Foods and Landisville Salunga 4-H Clothing Club — 7.30 p. m.

### Thursday

Swine Producers Assn. Board of Directors — 8 p. m. at Farm Bureau Cooperative, Dillersville Road, Lancaster.

Holstein 4-H Club — 8 p. m. at the home of Paul Brubaker R1 Mt. Joy.

East Petersburg 4-H Clothing Club — 9.30 a. m.

Litzitz Country 4-H Foods Club — 1.30 p. m.

Muddy Creek Clothing Club— 7.30 p. m.

### Friday

Cumberland County Wool Growers Assn — 7 a. m. to 3 p. m. at Carlisle freight station.

Paradise 4-H Club — 8 p. m. at the home of Marvin W. Rice, R1 Ronks

Elizabethtown 4-H Clothing Club — 9.30 a. m.

Clay - Ephrata 4-H Food Club — 1.30 p. m.

## Cocalico Farm Among Top Ayrshire Herds

The purebred Ayrshire dairy herd of Eh N, Martin's Cocalico Farm at Stevens, has achieved top recognition during a recent month for outstanding production. This herd is credited with averaging 1007 pounds of 4.2% milk and 42 pounds of butterfat actual, for the respective month, which places it among the nation's top Ayrshire herds.

## Flying Farmers Have Meeting At Barto, Pa.

Flying Farmers from all over Pennsylvania converged on the John Gehman Farm, Barto, Pa., this past weekend by air and by car including antique automobiles.

A weiner roast was held at Gehman's at noon on Saturday after which a visit, under the guidance of director Harry Arnold, was made to Hopewell State Park.

Another stop was made to see the Gilbertsville auction in action after which the group went to Sell's Restaurant at Red Hill for dinner.

After dinner the business program was conducted at the Gehman's home. Paul Moyer, Line Lexington, a Flying Farmer member, showed movies and gave a running account of a flying trip by Cessna 170 to mission fields in Southern Mexico and Central America. The trip was made in April, 1956. The photography was excellent.

L. L. Logan, Kennett Square, regional director of the National

## Plastic Drop Cloth Inside Door Of Trucks Helps Keep Frozen Food

Marketing researchers of the U.S. Department of Agriculture

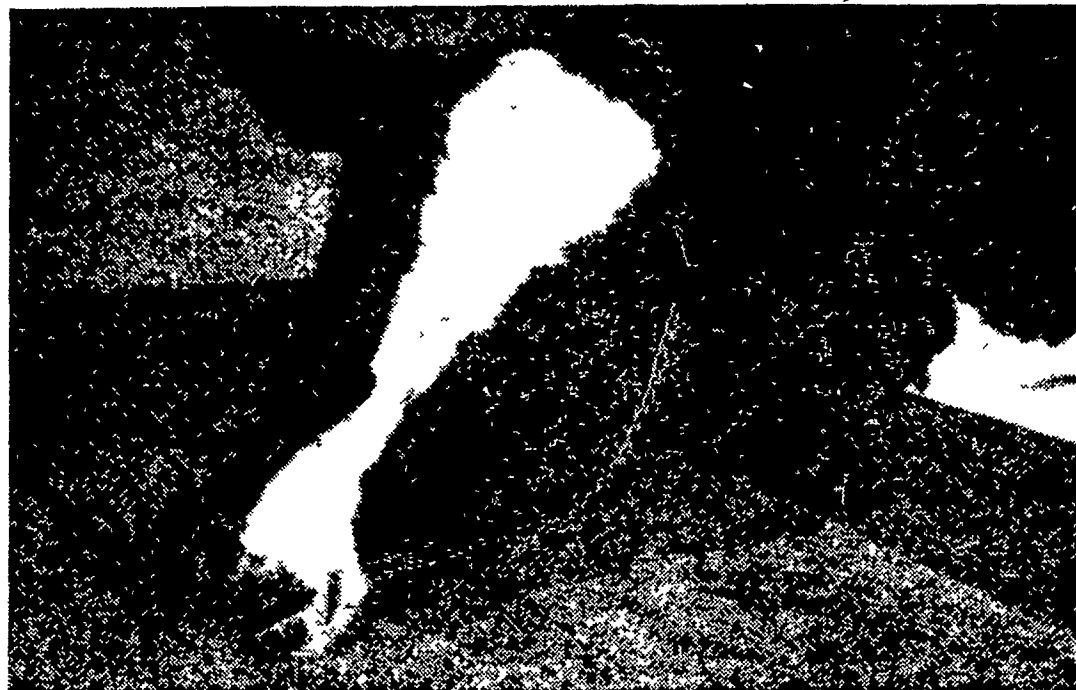

have developed a practical means of maintaining cold temperatures inside refrigerated delivery trucks during hot weather, according to a report issued today. A new plastic door curtain, which is mounted just inside the rear door of the trucks, has proved successful in maintaining the frozen condition of products in trucks. The curtain slows down the escape of cold air when the door is open during deliveries, and at the same time prevents hot outside air from entering. It helps prevent the cold plates of the truck from dripping, saves on product damage and quality deterioration, and reduces the cost of refrigeration.

Tests conducted by the USDA's Agricultural Marketing Service on trucks in commercial operation showed that the curtain resulted in a 3.2 degree smaller rise in product temperature, and a 7.2 degree colder inside air temperature, compared with trucks without the curtain. Dripping from the cold plates of the trucks was almost totally eliminated.

The group attended church services Sunday morning at the Bally Mennonite Church, after which they were guests of the Christian Fellowship group of the church at the farm of Pastor Longacre. A delicious picnic dinner was provided such as only those of the Dutch community could prepare.

Thirteen Flying Farmers from Chester County attended. Included were Mr. and Mrs. Homer E. Kolb of near Phoenixville who recently joined the organization.

There were eight from Lancaster County including Queen elect Charlotte Huber who will make an appearance on WGAL-TV July 27 at 2 p. m.

when watery spring pastures make fussy eaters...

## Purina Bulky-Las whets appetites, helps maintain top cow condition

Dairymen don't ordinarily complain this time of year about milk flow or cow condition.

But, when lush pasture grass contains up to 85% water, cows often eat so much grass they get full and won't eat their grain. They continue to milk well, but often lose weight if they do not eat enough grain while on lush pasture.

Then, when pastures turn brown most of the grain ration will be needed to maintain the cow bodies. Milk production usually drops off when body condition is poor.

### Maintain body condition with Bulky-Las

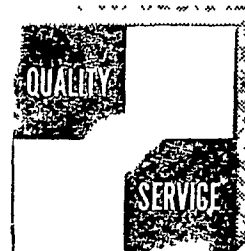

Top-feed palatable Bulky-I with whatever ration you are feeding... (up to one-half gallon per cow milking). Bulky-I stimulates cows' appetites, a body-building nourishment

your ration, and keeps cows producing well, right up to dry-off time. Cows go for the molasses, bulky beet pulp, alfalfa meal, vitamins and minerals in Bulky-Las.

Bulky-Las helps balance with minerals and energy the watery grass your cows eat on pasture.

No matter what kind of grain ration you are now feeding, ask us about Bulky-Las. We will gladly give you proof that Bulky-Las is tops when it comes to helping maintain cow condition.

Get the umps on the fly problem this spring. Sprinkle PURINA FLY BAIT lightly wherever flies gather. In the dairy barn, poultry house, kennel... and in outdoor areas, too. Flies naturally go for Purina Fly Bait. And does it kill! So, be sure to check your checkerboard Man, and beat the problem.
