

**TURKEY IS THE NEW HOME OF THIS** Maryland bred Hereford. The animal is shown being unloaded from the plane by a group of Turkey's agricultural leaders. The young whiteface was secured from H. C. Jefferson of Skyesville, Md., and donated to the Ataturk Farm near Ankara by Heifer Project, Inc. The imported cattle will be used to improve the native cattle of Turkey, according to F. A. Ralston, livestock advisor with the International Cooperation Administration in Ankara.

## Farm Journalists Invited Here By New Holland

Farm journalists from throughout the Northeastern United States will be in Lancaster Tuesday to witness a "press preview" of the New Holland Machine Co's "hay in a day" system.

The writers will see in operation mowers, crushers, balers, both conventional and self propelled, and wagon driers.

The demonstration, to be held at New Holland's experimental field at Lancaster Municipal Airport, will not be open to the public.

According to the public relations department, this is the first of a series of such demonstrations to be held for farm writers throughout the nation.

## Judges Named For Holstein Regional Shows

The Holstein-Friesian Assn., of America has announced a judging schedule for its 1957 regional and national Holstein shows.

The Western regional will be held Sept 16, in connection with the Utah State Fair at Salt Lake City, Eugene W. Nelson, Union Grove, Wisc., Holstein breeder, will judge the event.

On Sept 18 and 19, Dean Gordon M. Cairns of the University of Maryland will officiate at a similar show at the Eastern States Exposition, West Springfield, Mass.

The Southern regional show is scheduled for Sept. 26 as a part of the Mid-South Fair, Memphis, Tenn. Merle Howard, manager of the famous Mooseheart Holstein herd, Mooseheart, Ill will judge.

J. A. Fauchild, an official inspector in the Herd Classification Program of the Holstein-Friesian Assn of America, will judge the Southwestern show. It will be held Oct 8, in connection with the Pan-American Livestock Exposition of the State Fair of Texas at Dallas.

Professor George Trimbarger of Cornell University has been selected to judge Holsteins at the International Dairy Show, October 10 and 11 at Chicago.

The National Holstein Show will again be held in conjunction with the National Dairy Cattle Congress, Waterloo, Iowa. Holsteins will be judged Oct 3 and 4 by William K. Hepburn, Dalton, Pa.

## Horn Flies Voted Most Unpopular

Information based on reports from 33 states show which insects were most unpopular pests of man and beast in 1956.

Horn flies were rated as the No. 1 pest of farm animals in 16 states, cattle grubs and lice named in 14, and stable flies in 12. Biting flies were also high on the list of livestock pests.

Mosquitoes and house flies were rated the most unpopular among household insects in 1956.

## Intercourse Invites USAF Plane Crew as Special Jubilee Guests

The village of Intercourse has sent a special invitation to three Air Force men to be their special guests at the Intercourse Summer Jubilee to be held on Aug. 16, 17 and 18.

These men were the crew of the huge two-engine C-46 Air Force plane which, due to bad

weather and lack of fuel, were forced to land in a soft cornfield beside the village last Oct. 26. The guests are 1st Lt. Thomas A. Clark, Neptune, N. J., 1st Lt. Walter E. Bachman, Jr., Doylestown, Pa.; and Henry LaRoche, A/2C, New Castle, Dela. All three are reserves in the U.S. Air Force.

A building block for every need.

## All-New OLIVER SUPERIOR DRILL

Double Capacity...  
Low Hopper...Life-Seal Bearings

This new No. 64 Drill doubles capacity—holds a bushel of grain and 80 pounds of fertilizer per foot. The extremely low hopper—only 3½ feet off the ground—is easier to fill. And, you have this same low height whether you choose 20-inch or 15-inch wheels, both taking low-cost, used tires.

Lifetime-seal disc bearings eliminate daily greasings, save time and cost of lubricant. A low, rear-mounted grass seeder sows in bands, or broadcasts. You have a choice of 144 grain seeding rates, 30 fertilizer distribution rates ranging from 65 to 645 pounds per acre. The famous Double-Run Force Feed handles any size seed, meters accurately, avoids waste. Plain grain drill, holding 1½ bushels per foot, available.

## Announcing! Our Appointment as Authorized Dealer for HEAVY-DUTY Air-Cooled WISCONSIN ENGINES!

As the newly authorized WISCONSIN Dealer for this locality, we can now supply your power requirements within a 3 to 36 hp. range, with engines that are second to none . . . Never have we offered a better value . . . more for your money . . . than we now give in WISCONSIN Heavy-Duty Air-Cooled Engines.

Here are engines of service-proved dependability . . . test-proven on machinery wherever Air-Cooled Engines in the 3 to 36 hp. range provide power! Look anywhere on any front and you will find them . . . in construction work, industrial service, highway maintenance, railroad maintenance, and operating oil field, farm and marine equipment. These equipment builders demand, above all, easy-starting, steady, husky power regardless of the climate or season—and Wisconsin deliver it! There are no winter freeze-ups; no radiators to spring leaks or clog; no danger of overheating, even in the hottest weather. And they start easily in any weather because every Wisconsin Engine has a weather-sealed outside magneto with an impulse coupling, assuring a fast, hot spark.

See us and let us match a Wisconsin to your job . . . a complete power range from 3 to 36 hp. to choose from.

Typical 4 cycle single cylinder model, 3 to 8.25 hp.

Typical single-cylinder model, 6 to 9 hp., with clutch assembly.

Typical two-cylinder model, 7 to 15 hp.

Typical V-type four-cylinder model, 15 to 36 hp., with clutch assembly.
