

WE'RE FEEDING CATTLE, TOO!

Visit the Steer Feeding Demonstration at the Stock Yards, Lancaster.
Pens 79A and 80A.

We can talk to you about Purina Steer Fatena and how it fits into any type feeding operation. We can tell you why it's better than a single-source protein. We can show you records of good daily gain at low cost... BUT THAT ISN'T LIKE SEEING FOR YOURSELF. That's why we're running a cattle feeding demonstration... to let you see first-hand just what Purina Steer Fa-

tena can do. We're feeding two pens of cattle. One pen gets Purina, the other a single-source protein. We want you to watch the progress of this feeding trial. Visit it often. We're confident the Purina-fed steers will show you how you can produce faster gains and more beef at less cost with Purina Steer Fatena than with a single-source protein.

The Steers were started April 27th to be fed 120 days, weighed and graded, divided into two pens of 10 steers each. They are being fed at the Stock Yards.

RESULTS OF STEER FATENA	RESULTS OF 66 DAYS ON FEED SINGLE SOURCE PROTEIN
Gain Per Day . . . 3.16 LBS.	Gains Per Day Per Steer 2.70 LBS.
Cost of Gain . . . 18.4c LB.	Cost of Gain . . . 19.1c LB.
Total Gain 10 Steers 2055 LBS.	Total Gain 10 Steers for 66 days . . . 1795 LBS.
66 Days on Feed.	

Be Sure To Attend the FIELD DAY-TUESDAY, AUG. 20
at the Stock Yards on completion of this demonstration.

Plans for Dutch Summer Jubilee Listed by Intercourse Civic Assn.

Plans are now complete at the Village of Intercourse, for its annual Dutch Summer Jubilee, Aug. 16, 17 and 18. A week end of varied entertainment and good eating is in store for those attend.

On Friday evening there will be held a donkey baseball game where the Amish boys will play others in the town.

During an intermission a special ceremony will be held to introduce and quiz the Air Force pilots who last October, because of bad weather and lack of fuel, safely landed a large two-engine plane in a cornfield, narrowly missing the town. Before the ball game the pilots and wives will be treated to an Amish dinner at the home of Mr. and Mrs. Jonathan Esh, on whose farm the plane was landed.

The Saturday activities will begin with a Country Kitchen Tour from 9 a. m. until noon. An admission ticket will entitle the owner to follow on a supplied map a number of "open house" kitchens in and near-by the town. In many the housewife will be preparing some food peculiar to the Pennsylvania Dutch community which will be offered for sale. Visitors will see a quilting bee in progress, displays of quilts and antiques, bread, cookie, apple-butter and soap making, cheese making, flour grinding, etc. Hostesses will

be on hand at each home.

At 1 p.m. there will begin a Horse Show where a hundred horses and ponies will compete in nineteen events for money, silver trophies and ribbons. There will be a special Western Calf Roping event. A steam engine demonstration will be included.

At 4 to 8 p.m. there will be a chicken barbeque.

There will be nothing of a commercial nature on the Sabbath. At 7 p.m. during the sunset hour there will be an old-fashioned open air hymn sing. On the school grounds approximately a thousand people will gather singing the old hymns of praise.

The summer jubilee is arranged by the Intercourse Civic Assn. and proceeds are to go for payment of debt incurred by the recent purchase of five acres of land to be improved for use as a community park.

112 Students Study Quality At Egg School

COLUMBUS, Ohio — Three foreign countries, the District of Columbia and 19 states were represented among the 112 students attending a four-day school on egg quality and grading at Ohio State University, here.

The unusual "college" sponsored by the Northeastern Poultry Producers Council (NEPCO), was designed to train poultry industry personnel in the art of supplying the nation's housewives with higher quality eggs.

Using special candling lights, students were trained in selecting eggs for superior interior quality, as well as the more obvious outward appearances. The teaching staff consisted of 34 egg quality and marketing experts from a dozen states, each a specialist in his field.

Ohio led the registration list with 36 students, with New York, Pennsylvania and Indiana ranking downward in that order. Two students flew in from Puerto Rico for the school, while India and Canada each supplied one.

A chicken barbecue in nearby North Worthington, prepared by Emil Malnovsky, Ohio extension poultryman and Bruce Davison, secretary of the Ohio Poultry Council, lent a period of relaxation to the four day school.

Examinations, both written and candling, climaxed the school. Those who successfully passed will receive certificates showing their proficiency.

Three citations were presented in brief ceremonies at the barbecue. The first went to E. J. Lawless, Jr., of the Pennsylvania Department of Agriculture, for attending 25 of the annual schools. The wife of Professor Emeritus H. E. Botsford, Ithaca, N. Y., received the second for "permitting her husband to attend for 25 years."

The third of the citations went to Dr. Alfred Van Wagenen, managing director of the Council, in recognition of his years of outstanding service to the poultry industry.

This was the 26th annual egg grading and quality school sponsored by NEPCO. They have been staged in nearly all of the 14 states that makes up the Council territory — ranging from Maine to West Virginia and westward to Ohio.

Farmers Supply

Good Pastures Mean Good Livestock — Use PASTURGRO*

PASTURGRO is specially formulated to meet pasture needs. It supplements plant nutrients in your soil. It gives the balance of growth elements needed to produce grass and legumes with higher feeding value and greater carrying capacity.

Use Pasturgo During September to improve your grassfields.

FOR FALL SEEDING — RYE OATS BARLEY WHEAT

Blenn is a specially formulated plant food for wheat - Oats - Barley - Rye; fortified with extra growth elements to meet the soil needs. Produces heavy yields.
