

Series of Meetings on Watersheds Planned by Soil Conservation Dist.

The schedule for a series of watershed meetings in October and November was decided by the directors of the Lancaster County Soil Conservation District Monday night at a meeting at the County Court House.

The meetings will feature conservation films, talks by local farmer cooperators and refreshments.

The schedule is as follows:

Oct. 22, New Holland Fire Hall, Oct. 24, Mt. Joy, place undecided; Oct. 28, Mastersonville Fire Hall; Oct. 29, Cocalico Union High School, Nov. 4, Muddy Creek, place undecided, and Nov. 6, Speedwell Forge.

The program for the tenth annual conference of Pennsylvania Soil Conservation District Directors, to be held Sept. 26 and 27 at Yoik, was announced. On the

program will be Dean Hoffer, Manheim, who will give his FFA prize winning speech, "Conservation."

Henry H. Hackman, Lancaster County director and a vice president of the state organization, will give an illustrated lecture titled "Our Heritage and Challenge."

On the program committee for the conference were Amos Funk, R1 Millersville, and Wayne Rentschler, Lampeter.

Other speakers will include Gov. Leader, Sec. Henning; Lyman E. Jackson, dean of the college of agriculture at Penn State; and Herbert R. Albrecht, state director of extension.

The following were approved by the directors as new cooperators in the district:

Vernon Kline, R2 Denver, 91 acres, Norman I. Leminger, R2 Denver, 105 acres; Lloyd Martin, R1 East Earl, 84 acres; Moses Senseng, R1 East Earl, 47 acres; Amos L. Weaver, R1 East Earl, 71 acres; David Horst, R1 East Earl, 59 acres.

Aaron Z. Senseng, R1 East Earl, 52 acres; Aaron Z. Senseng, R1 East Earl, 43 acres; Fred G. Seldomridge, R1 Gap, 133 acres; Rufus S. Miller, R1 Bainbridge, 120 acres, and John Rupeit, R1 Kirkwood, 220 acres.

Progressive DHIA Reports 5 Herds Average 35 lb.

CORN PICKING STARTED THIS WEEK in the Garden Spot. Here Jacob Stehman is shown picking corn on the farm of Abram Harnish, R1 Conestoga. Stehman said that his corn crop is making about 70 bushels

an acre. He planted at a rate of 14 to 16 inches between stalks in 40 inch rows. For fertilizer he plowed down 300 pounds of 5-10-10 and manured heavily. (LF Photo)

HERE IS THE NEW PURINA HOG PROGRAM

1. Start litter on new, improved Purina Baby Pig Chow. Then creep feed Purina Pig Startena until 3 weeks after weaning.

2. Put pigs on growing ration of 4 parts grain and 1 part Purina Hog Chow until pigs are about 3 months old.

3. For last 6 weeks, feed 9 parts grain to 1 part New Purina Hog Chow. Feed either free choice or mixed, in correct proportions.

Now...market hogs in 4²/₃ months

New Purina feeding program weans pigs at six weeks... grows pigs to 190 lbs. in 4²/₃ months... cuts feed costs 4%... 1 lb. of pork for every 3.26 lbs. of feed, from weaning to market... conditions sows faster for next farrowing.

Every year more proof piles up that hogs should be fed according to age and weight requirements. Young pigs use feed differently than do older hogs. They need more protein... more vitamins... more of the expensive parts of the ration. But, as pigs grow, they become more efficient users of carbohydrates—the less costly part of rations. The proportion of cheaper carbohydrates can be rapidly increased.

Tests at the Purina Research Farm showed that this new program cut feed costs an average of 4% below any previous Purina Program... produced each pound of pork on only 3.26 lbs. of feed from weaning to market. It also gave sows the chance to recover faster from farrowing and nursing. Sows were ready to breed

again in less time than when pigs were weaned at 9 weeks.

Improved Purina Hog Chows Make Program Click

Purina Baby Pig Chow and Pig Startena, the famous Fast-Start Twins, have been further improved to take advantage of the newest research findings. Purina Hog Chow has been improved to the point where you may now use 33% more grain during the last six weeks than on previous Purina Hog Programs. Be sure to feed right... follow the recommended steps closely. The fast gains, early weaning, and increased efficiency of this new Purina Hog Program can be yours when you feed these high-quality Chows in the way research has proved they should be fed for top results.
