

One Family Tops Baby Beef Show At Solanco Fair; 46 Dairy Entries

(Continued from page 11)

R2 Quarryville, Ross Ferguson, R1 Kirkwood, and Grafton Brabson, Peach Bottom Girls, Elsie Rupert, Christiana, Barbara Hollinger, New Providence, Janet L. Ankrum, Peach Bottom, and Sara Lee Bradley, Holtwood

AYRSHIRE

Junior calf—first, Carol Krantz
Senior calf—first, Earl D. Wenger, second, Joyce Kreider, third, James Esbenshade

Junior yearling — first, Jean Kreider

Senior yearling—first, Donald Fryer

Grand Champion, Donald Fryer, Strasburg

Reserve Champion, Carl Krantz, New Providence

JERSEY

Junior calf—first, Lucille Kreider, second, Tom Halladay

Senior calf—first, Tom Halladay

Grand Champion—Tom Halladay, Kirkwood

Reserve Champion — Lucille Kreider, R1 Drumoie

GUERNSEY

Junior calf—first, Donald S. Ankrum, second, Dorothy Garber, third, Robert B. McSparran, fourth, Kenneth Garber, fifth, Marlin G. Schnipp

Senior calf—first, H. Ross Ferguson, second, William F. Ferguson, third, Laverne Mull, fourth, Clair Mull, fifth, Jeanne Hastings

Junior yearling—first, H. Ross Ferguson

Senior yearling—first, H. Ross Ferguson, second, James L. Hastings

Two-year-old—first, Glenn Bushong, second, Kenneth Garber, third, Laverne Mull, fourth, Janet Hastings

Three-year-old — first, Kenneth Garber.

Grand Champion—H. Ross Ferguson, Kirkwood

Reserve Champion — Glenn Bushong, RD, Columbia.

HOLSTEIN

Junior calf—first, Richard Geyer, second, Robert Wenge, third, Linda Welk

Senior calf—first, Sidney Ann Shoemaker, second, Barbara Shoemaker, third, Carl C. Metz, fourth, John R. Graham, fifth, Walter R. Martin.

Junior yearling — first, Paul Trimble, second, Carl C. Metz

Senior yearling — first, Helen Wenger, second, Donald B. Trimble, third, Paul Welk

Two yearold — first, Donald Welk, second, Ann Wenger

Grand Champion — Donald Welk, Strasburg.

Reserve Champion — Sidney Ann Shoemaker, Quarryville.

FITTING CONTEST

First, Carol Krantz, second, Paul Trimble, third, Tom Halladay, fourth, Glenn Bushong, fifth, Lucille Kreider

SHOWING CONTEST

First, Donald Welk, second, Earl Wenger, third, Donald Fryer, fourth, Donald Trimble, fifth, Paul Trimble

SWINE

Junior sow pig — Yorkshire — first, Elmer T. Jackson, second, Kenneth Miller, third, James L. Hastings.

Junior sow pig—Chester White — first, C. Richard Hastings; second, John E. Hastings, third, John Hastings Jr

Junior sow pig — Berkshire — first, Robert E. Maule, second, William R. Maule

Sow and litter—first, C. Richard Hastings; second, Kenneth Redclay, third, William Weiler Jr

Young boar—first, Donald Wenger

Aged sow — Yorkshire — first, Kenneth Redclay, second, Wilham Weiler Jr, third, Harold L. Clark

Allentown Firm

PAC License Lifted by USDA

The U S Department of Agriculture has announced that Lehigh Valley Frozen Foods, Inc., Allentown, will not be eligible to receive a Perishable Agricultural Commodities Act license until a reparation award USDA issued Aug 6, 1957, is satisfied.

The award amounts to \$396.67 plus interest from July 1, 1956 in favor of Sanger Frozen Foods Company, Sanger, Calif. USDA made the award in a default order after the Sanger company failed to respond to a complaint alleging failure to pay for 34 cases of frozen asparagus spears in May 1956.

Prior to issuance of the reparation order, the PAC Act license of Lehigh Valley Frozen Foods, Inc., had terminated for nonpayment of the annual renewal fee.

Kenneth Redclay, second, Wilham Weiler Jr, third, Harold L. Clark

Aged sow — Berkshire — first, Sam Sprout

Aged sow — Chester White — first, C. Richard Hastings.

Aged sow — Hampshire — first, Bill Heidelbaugh

Champion boar—Donald Wenger

Champion female—Sam Sprout

BABY BEEF

Angus—first, Magda Frey; second, Donald Herr, R2 Quarryville, third, Maria Frey, R2 Quarryville; fourth, Elaine Herr, Quarryville; fifth, John Frey, R2 Quarryville; sixth, Shirley Miller, Christiana, seventh, David Halladay, Kirkwood

Hereford—first, Judy Daugherty, Kirkwood, second, Martin Greenleaf, Oxford, third, Tom Daugherty, Quarryville, fourth, Elaine Herr, Quarryville; fifth, Kenneth Rutt, Quarryville, sixth, Scott Greenleaf, Oxford; seventh, Rose Marie Linton, Quarryville, eighth, Jay Ranck, Quarryville; ninth, Fred Linton Jr, Quarryville

Shorthorn—first, Brian Halladay, Kirkwood.

FFA—first, Ernst Frey, second, Daniel Groff, R3 Quarryville, third, Raymond Deiter, New Providence, fourth, Scott Greenleaf, Oxford, fifth, James Ruppert, Kirkwood, sixth, Martin Dunbach, Quarryville

Showmanship — first, Ernst Frey, second, Magda Frey, third, Tom Daugherty, fourth, Maria Frey, fifth, Donald Herr.

Fitting — first, Martin Greenleaf; second, Magda Frey, third, Ernst Frey, fourth, Maria Frey, fifth, Judy Daugherty

Zeitlers Prediction Scarlett, was a seven year-old, produced 14,965 pounds of milk and 734 pounds of fat in 365 days. She was milked two times daily.

Barbian Fenetta, was a seven year-old, produced 17,930 pounds of milk and 854 pounds of fat in 365 days. She was milked two times daily.

Zeitler Drucilla Violetta, was a five year-old, produced 11,066 pounds of milk and 509 pounds of fat in 305 days. She was milked two times daily.

Selects Drucilla Bonanza, was a junior three year-old, produced 12,601 pounds of milk and 545 pounds of fat in 305 days. She was milked two times daily.

These official production records were supervised by Pennsylvania State University.

CONTROL FOOT ROT

Best control of foot rot in livestock is removal of the most common source of infection, muddy areas where the animals walk, reminds Dr. Samuel Guss, Penn State extension veterinary specialist. Remove sharp stones also.

After Rains; Hay

Prospects Low

Local rains and general showers of the past week helped pastures and some late maturing crops on Pennsylvania farms, but came too late to benefit corn intended for grain, according to Federal-State surveys announced by the State Department of Agriculture. Prospects for hay continued low.

Drought losses are still faced by farmers in southeastern counties who went through 11 weeks with little rain. Requests for federal disaster assistance for farmers in Berks, Bucks, Chester, Montgomery and Monroe Counties are being considered now by the Pennsylvania USDA Disaster Committee.

Pennsylvania pastures and hay meadows responded quickly to the more favorable weather conditions of the past week. They are making a come-back in both growth and color. There is hope that grasslands will revive growth and vigor sufficiently to withstand low temperatures this winter. Prospects are brighter for this season's new grass seedings responding to improved growing conditions.

Many corn fields are now bare as farmers made silo filling major activity this past week, usually due to the poor condition of the crop.

Added soil moisture permitted the preparation of seed beds for the planting of winter grains, an operation greatly delayed by dry conditions. Earlier grass seedings are expected to come through, although some re-seeding will be required.

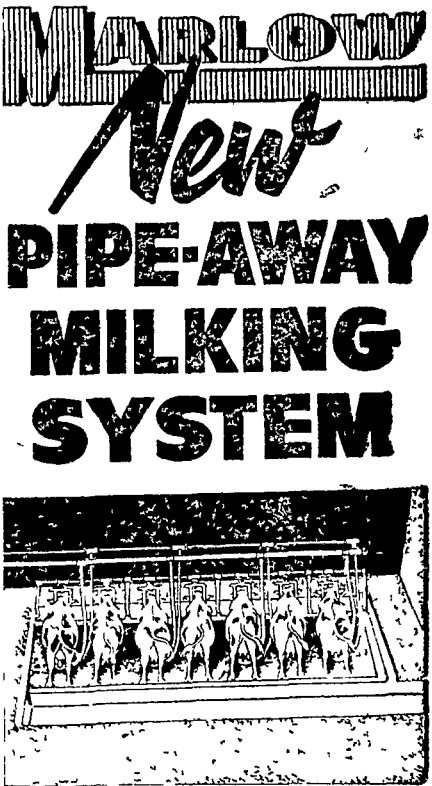

Rains came too late to be of much help to corn acreage held for grain. It was too far advanced except for a few scattered fields of late planted corn, the survey revealed. The same situation holds for soybeans.

Dry weather took its toll of vegetable crops. A few lima beans were being picked last week in some areas and the tomato harvest continued, although sizes were small. Tomato dry rot was reported in many areas. Cabbage is moving to market in volume but heads are small. Some late planted sweet corn was expected to reach full maturity and yield well. The digging of early potatoes is about complete and digging of late varieties will be stepped up during the next two weeks.

Recent rains might aid the late apple crop and improve size. However, dry weather has seriously curtailed the commercial grape crop in Erie County.

CANADIANS USING MORE CIGARETTES

Canadian cigarette consumption in the first half of 1957 was nearly two billion cigarettes higher than in the first half of 1956, according to figures released last week by the Foreign Agricultural Service. And approximately 27 billion were smoked in Canada in 1956 compared with 24.6 billion in 1955. Cigar consumption is also increasing north of our border. A total of 146 million are reported to have been smoked from January through June 1957, compared with 126 million during the same period of 1956.

- ★ CUTS CHORE TIME!
- ★ LATEST DESIGN!
- ★ ALL THE PLUS FEATURES OF MARLOW MILKERS!

The Marlow Pipe-Away System is the automatic answer to labor saving. Ends pail lugging, cuts chore time. Marlow Milking Systems for both parlors and stanchion barns. Marlow perfect clean-in-place pipeline system makes milking and clean-up practically automatic. Systems with stainless steel or pyrex glass milk lines. Both vacuum releaser and electronic controlled milk pump to convey milk to bulk tank. Milk the Marlow way for the power-easy day.
