

# Cupid's Arrow Point

IN THIS UNUSUAL pattern, the interest is in the border, rather than in the block. The deep pink squares are supposed to be drops of blood from Cupid's arrow. The block

when finished is nine inches square. When cutting material, allow for seams as these patterns are the exact size of the finished piece. (Copyright: Keekly Star Farmer)

## Farm Women 9 Pack Baskets For Shut-ins

Society 9 met at the home of Mrs Ray Aston of Marticville on the afternoon of Nov. 16. Co-hostess, who helped to serve the refreshments, was Mrs. Elizabeth Shaubach, Marticville. Plans were made for a banquet to be held at Meadow Hills Inn

at 6 30 p m, Dec 18. A Christmas Party will be held by members of the Society. The Society voted to give \$5 to the T. B. Society, \$10 toward 4 H boys and girls expenses that they might be able to attend the convention in Chicago, and \$25 support for a orphan girl in India. At the close of the meeting 23 Thanksgiving baskets were made for the sick and shut in, after which refreshments were served by the hostess and co-hostess.

**GAS has GOT IT!**

it will pay YOU to learn about our metered gas hook-up plan. All the gas you need and you pay only for what you use. Get city conveniences beyond the gas mains

call MYER'S

## For Farm Women . . .

(Continued from page 10)

three layers. Mix one package of instant pudding mix with half the amount of milk called for on the container, or one cup. Whip cream until stiff. To about two-thirds of the pudding, fold in half the whipped cream. Spread between the layers of the cake. Fold the remaining pudding and cream together, and spread over the top and sides of the cake. Place in refrigerator and allow to set for several hours or over night.

Before serving, sprinkle with shredded blanched almonds. They will shred easily with a sharp knife if a few at a time are brought to the boiling point, then removed from the water; toast in oven after shredding until light brown.

### FAVORITE EGG DIP

- 12 hard-cooked eggs, riced or sieved
- 2 tablespoons soft butter or margarine
- 1 tablespoon lemon juice or vinegar
- 2 teaspoons prepared mustard
- 2 teaspoons Worcestershire sauce
- 2 drops tabasco sauce
- 1 teaspoon salt
- 1/4 teaspoon white pepper
- 3/4 cup salad dressing
- Paprika, chives, parsley or egg slice for garnish

Combine all ingredients except garnish. Beat until smooth. Add more seasoning if desired. Have consistency soft enough to permit potato chips to be dipped into it easily. Refrigerate until ready to serve. About 20 minutes before serving, remove from refrigerator and beat or whip dip to fluff and soften it. Pile into chilled bowl. Garnish as desired. Makes one quart.

Use pleater tape and pleater pins to save time when making draperies. Both tape and pins can be purchased at most sewing shops.

One 100-watt blub gives the same amount of light as two 60-watt bulbs or six 25-watt blubs — and costs less to buy and operate.

That's all for this week. We are always glad for your letters and recipes so keep them coming!

# Short-handed?

HEAT WATER!  
UNLOAD SILO!  
MILK COWS!  
FEED CHICKENS!  
CLEAN BARN!  
WASH EGGS!  
WATER CHICKENS!

REDDY KILOWATT,

your "strong right arm",  
has a hundred hands  
to help you!

A good hundred or more electric hands are available to take over many of your time-taking farm chores . . . and do them better, too.

For example, electric barn cleaners can cut daily barn cleaning time from two hours to twenty minutes. An electric silo unloader can save 200 hours of hard and dangerous work every year. Automatic electric poultry feeders and poultry waterers can save thousands of steps. By curing hay in the mow, electrically, weather hazards are greatly

reduced. At the same time, the quality of the hay is preserved.

Egg cleaning and washing, milking, heating water, too, can be done electrically, in fractions of the time it takes using old-fashioned methods.

These barely scratch the surface of a long list of the tasks which electric hired hands can do so handily. See your farm equipment dealer or your PP&L representative, right away. Begin to Farm Better . . . Electrically, Today!
