THE BOOTS & SADDLES light horse and pony club made their first public appearance this year at the Farm Show. Shown here getting ready to perform is Sid Hershey, 15, son of Mr. and Mrs. Parke Her-

shey, 547 East Main St., New Holland. He was one of 11 riders from the county who participated in the riding events. (LF Photo)

This year get  
**LARGE SIZE EARLY EGGS**

**27 OUNCES PER DOZEN**

An outstanding characteristic of K-137 KimberCHIKS

As of January 1, 1956, K-137 Kimberchiks led in early egg size in all three official random sample tests in which they were entered—California, Missouri, and Utah. Since large eggs are often worth 100% more than small, and 35-50% more than medium, this characteristic of the K-137 can make a great difference in income during the pullet year.

The K-137 is also noted for its good egg quality, both shell and interior. The high percentage of firm albumen results in more AA quality eggs.

The K-137 has good livability... 93.4% to about 18 months in the three official tests in which they were entered last year.

We invite you to compare the performance of this outstanding stock under your own management.

**16 Page Booklet FREE**

Please ask for this booklet describing the broad breeding program conducted by Kimber Farms, Inc. and giving more information about the K-137.

**Longenecker's Hatchery**  
1110 South Market St.  
Elizabethtown, Pa.

save with granular fertilizer

Eastern States high analysis granular fertilizer will save you money. Buy it now... at no increase in cost over old style pulverized grades... Eastern States high analysis granular fertilizer flows freely at planting time. Call your Eastern States representative or warehouseman now for the full story on how you can save money.

## President's Farm Message

(Continued from page 13)  
acreage allotments and price support levels will make additional administrative discretion a necessity. To assist the Secretary of Agriculture in exercising this discretion, the bipartisan Commodity Credit Corporation Advisory Board should be increased in number from five to seven. Members should be appointed by the President as at present, but with confirmation by the Senate. The Board should advise the Secretary regarding the establishing of price supports, determining of acreage allotments and related subjects.

Eighth The Agricultural Trade Development and Assistance Act should be extended. This law is one of the major authorities for moving surplus commodities. The law should be extended for one year with an additional \$15 billion authorized for sales for foreign currencies. But it must not, however, be allowed to become a device to postpone needed production and price adjustments. The extension should be limited to one year to give Congress the opportunity for annual review.

Ninth Research efforts aimed at increasing industrial uses of

farm products should be expanded. Our farms and forests are a major source of our raw materials. To a greater degree than at present, these raw materials can be used in industry, thereby broadening markets for our abundant farm products. New uses and new markets can be developed for our surplus crops. To bring this about, increased utilization research is needed and is proposed in the Budget Message. This will be moving in the direction recommended by the President's Commission on Increased Industrial Use of Agricultural Products.

In addition to the nine steps outlined here, the Congress should, as recommended in the Budget Message (a) extend the National Wool Act, (b) continue the special school milk program (c) broaden the sources of funds for Rural Electrification Administration, (d) require State participation in programs to relieve the effects of drought or other natural disaster, and (e) improve conservation accomplishments to those practices which achieve longer lasting conservation benefits.

World's most popular spreader  
**NEW IDEA 95 bushel**

No. 17... 95 bu.

Slanted rear arch, steel flares and endgate, bigger upper cylinder. Water repellent Pentatreated wood sides and bottom for longer life.

**plus... full year guarantee**
