

## Elizabethtown Youth Wins PP&L Scholarship; Plans Mission Career

James A DeLong, of 21 Sager Road, Mounted Route 5, Elizabethtown, is one of six winners of this year's Pennsylvania Power & Light Company scholarships, Chas E. Oakes, PP&L chairman of the board, announced. He will attend Susquehanna University in preparation for the ministry and a career as a missionary in the United Lutheran Church of America.

The Elizabethtown Area high school student was president and secretary of the debate club, in the east of the junior class play, co editor of the school newspaper, a member of the journalism club, the chess club and was in the junior high chorus. Outside of school, he has been a leader in various religious activities.

HE HAS BEEN vice president of the Luther League of Christ Lutheran church in Elizabethtown, evangelism and publicity secretary of the Luther League, missions secretary of Lancaster Conference Luther League of the Central Pennsylvania Synod and

J. A. DeLong

vice president of the Elizabethtown Interdenominational Youth group

Other scholarship recipients and the schools they will attend this Fall are Peter J. Pappas 300 Race Street, Tamaqua, Pa., Lehigh University, John J. Marchaloms, 1214 Philo Street, Scranton, Pa., Lafayette College; Robert D. Smink, Jr., 1600 Lafayette Parkway, Williamsport, Pa., Bucknell University, Allan P. Conner, 230 Peach Street, Catasauqua, Pa., Lehigh University, Robert H. Swoyer, Jr., 2423 Livingston St., Allentown, Pa., Lehigh University.

THE UTILITY CO. scholarships provide for a payment of \$2,000 toward the grantee's tuition over the four years and an equal amount to the college or university attended by the grantee for the use of the institution in furthering its educational objectives.

Selection of the scholarship

## PROCESSED POULTRY

PHILADELPHIA, June 11 — Ready to cook icepack broiler and fryers — market barely steady. Offerings in some instances very heavy with prices as much as 1/2 cent lower. Demand fair & somewhat lighter than anticipated for the week.

Prices paid delivered warehouse, Philadelphia (cents per lb.)

Grade A and U. S. Grade A, 2 3 lb 34 1/2-35 1/2, mostly 34 1/2-35.

Hens: Ready to cook (icepacked) market steady with prices unchanged. Offerings moderate but ample for a relatively light demand.

Prices paid delivered warehouse, Philadelphia (cents per lb.)

Grade A and U. S. Grade A 4 5 1/2 lb 38-39

Receipts June 10, 247,000 lb including other than turkeys: Maryland, 47,000; Delaware, 74,000; North Carolina, 70,000; Georgia, 21,000; Virginia, 7,000 lb

grantees was made after careful consideration by an independent scholarship awards committee. Their task was made doubly difficult this year due to the greater number of high-scoring applicants than in other years and the fact that there are 331 applicants, a 15 per cent increase over last year.

Twenty-four young men and women from the company's service area, six in each of the four undergraduate classes, are presently receiving grants. The first graduates under the program will get their degrees next month.

The scholarship committee consists of Nichol H. Memory, director of admissions, Stevens Institute of Technology, Dr. Charles C. Tillinghast, principal-emeritus, Horace Mann School; and Dr. Robert W. Van Houten, president Newark College of Engineering.

## Largest Cash Prizes Offered At 1959 Farm Show

HARRISBURG, June 11 — In line with progress in Pennsylvania agriculture the largest cash premium offering in the history of the State Farm Show will be made available for the 1959 event, State Agriculture Secretary William L. Henning announced today.

The total of \$62,287.50 to be provided in premiums and prizes for the next January 12-16 exposition exceeds the previous record set at the 1957 show by more than \$1,000, the chairman of the Farm Show Commission said.

MOST OF THE increase will provide additional premiums for youth in 4-H, vocational agriculture and homemaking classes of the show, also dairy products, hay and apples in open competition, and the second annual Folk Dance Festival.

The Farm Show Commission has approved the entire premium list for printing. Copies should be available in late September.

Several revisions of the Farm Show rules were announced by the Commission. One provides that when an exhibit is ruled to be ineligible the other exhibits in the same class may be upgraded by the judges and premiums paid on the revised judgments.

IN FUTURE SHOWS, when an exhibitor intends to sell his livestock or other exhibits, each such exhibit must be officially entered in its class according to premium list requirements, Henning said.

Also, no livestock exhibitor will be permitted to bring any animals into the show unless officially entered under premium list requirements. An exception is made in the case of "nurse cows" to provide food for beef calves entered in the show.

First words spoken over the telephone were, "Watson, come here, I want you," spoken by Alexander Graham Bell to his assistant.

## Sec. Benson Urges More Consumer Use of Dairy Products During June

Secretary of Agriculture Ezra Taft Benson today urged consumers to take advantage of current plentiful supplies of dairy products by buying and serving them often during June.

"Consumers get outstanding food value all through the year when they buy milk and other dairy foods," the Secretary said. "During June, when supplies of dairy products are at a seasonal peak, these commodities represent an especially good food buy."

Dairy industry leaders are sponsoring a nation-wide "June Is Dairy Month" campaign to encourage consumption of dairy foods while they are most plentiful. Because of this seasonal abundance, the U.S. Department of Agriculture is supporting the industry campaign.

SECRETARY BENSON commended dairymen for their aggressive efforts to move the abundance of dairy products through good merchandising. "The dairy industry was one of the first segments of the food industry to recognize the need for more effective merchandising and promotion. Their June Dairy Month campaign highlights a year-round promotional program," the Secretary declared.

Milk output in 1958 promises to set a new record for the sixth consecutive year, Secretary Benson pointed out. Steady technical improvements and efficient management by dairymen have helped increase milk production per cow, even though the number of cows in herds throughout the nation has decreased. The months of spring abundance provide the year's peak supplies of dairy foods in June.

"Generous use of dairy foods makes an excellent nutritional

contribution to the family diet, as well as providing taste appeal and variety," the Secretary said. "All the dairy products—milk, cheese, cottage cheese, ice cream, butter, evaporated milk, dry milk, and the many dairy specialties such as sour cream and buttermilk—have a place in the family's daily menu."

THE SECRETARY NOTED a new daily food guide "Food For Fitness" published by USDA nutritionists, which stresses the need for some milk every day for everyone. Milk is the leading source of calcium, provides high-quality protein, riboflavin, vitamin A, and many other nutrients.

"Health, flavor, abundance—these are all excellent reasons why consumers should make the most of dairy foods in June," Secretary Benson said. "I hope everyone will join the dairy industry in its celebration of June Dairy Month by buying and using more milk and other dairy products in family meals."

To help support the dairy industry's June campaign, the U.S. Department of Agriculture is conducting a Special Plentiful Foods Program on dairy products. Under this program, USDA works with members of the food industry and with public informational media to call attention to the plentiful supplies and good food value of all dairy products.

## Big Tobacco Crop In Mexico Forecast

According to the Foreign Agricultural Service, Mexico's 1957-58 tobacco crop is forecast at 80.9 million pounds. This compares with the 1956-57 crop of 73.6 million pounds, and the 1955-56 crop of 63 million pounds.
