

# the Farm Wife and Family

egg yolks  
1/2 cup chopped pars-  
1/2 cup lemon juice  
1/2 cup salt and pepper  
1/2 cup cracker crumbs  
1/2 cup oysters and chop  
y. Drain again. Melt  
1/2 cup butter and  
1/2 cup flour. Add milk and  
oil until thickened, stirring  
constantly. Beat egg yolks  
lightly and add to sauce,  
mixing well.  
Add oyster liquor, parsley  
and juice and oysters. Sea-  
son with salt and pepper.  
Bake in greased ramekins or

scallop shells. Melt remain-  
ing butter and mix with  
crumbs. Sprinkle over cream  
ed mixture. Brown in hot  
oven (425 degrees) about  
seven minutes. Serves six.

### Pan Roast

2 cups lean pork, cut in  
strips  
3 tablespoons cooking oil  
1/2 cup chopped onion  
1/2 cup minced celery  
2 tablespoons flour  
1/2 teaspoon pepper  
1 cup water (including oys-  
ter liquor)  
1 pint oysters, drained  
6 patty shells optional)

Cook the pork strips in  
cooking oil until browned.  
Remove meat; add onion and  
celery, cooking until tender.  
Stir in flour and pepper. Add  
water and pork, stirring con-  
stantly until mixture thick-  
ens a bit.

Cover and cook over low  
heat 20 minutes, stirring oc-  
casionally. Add oysters and  
cook slowly five to 10 min-  
utes longer.

Serve in patty shells or  
with mashed potatoes. Six

servings.

### Oyster Loaf

1 loaf bread  
2 dozen oysters  
1 tablespoon chopped cel-  
ery  
Salt and pepper  
2 drops Tobasco sauce  
Butter  
1/2 cup cream

Cut off the top crust of  
bread and scoop out inside.  
Butter about one-third of  
bits of bread scooped out and  
toast in oven. Fry oysters in  
butter, add cream, celery,  
pepper, salt, Tobasco sauce  
and toasted bread

Tren fill the hollowed loaf  
with this mixture, cover with  
top crust and bake in a mod-  
erate oven 350 degrees) for  
20 minutes, basting often  
with oyster liquor. Slice and  
serve hot. Makes six to eight  
servings.

### Broiled Oysters

12 large oysters  
3/4 cup fine dry bread  
crumbs  
1/2 cup melted butter  
1/4 teaspoon salt  
Pinch cayenne pepper  
4 slices hot buttered toast  
Parsley  
4 lemon quarters

Wipe oysters dry, dip in  
butter or fat, seasoned with  
cayenne and salt. Roll in  
crumbs and broil on a narrow  
mesh broiler rack under mod-  
erate heat until brown. Ar-  
range on toast, pour over  
them the remaining butter  
and garnish with parsley and  
lemon. Makes from two to  
four portions.

RICE ROCKERFELLER is a "fancy" way to serve oys-  
ters. Topped with buttered crumbs, a combination of spin-  
ach, bacon and rice gives the oysters an extra-special flavor.

## Society Nine Sets Sewing Meet, Jan. 27

Farm Women Society No  
9 met at the home of Mrs  
Helen Zerker, Marticville,  
Jan 17, with Mrs. Ed Brene-  
man, 1959 president, presid-  
ing

Mrs. Elmer Huber gave de-  
votions.

The group scheduled a  
special meeting to sew can-  
cer dressings January 27, at  
the home of Mrs. Minnie  
Warfel, Conestoga Center.

Next meeting will be at  
1 p m, February 21 at the  
home of Mrs. Oram Hagen,  
with a covered dish lunch-  
eon and flower sale

## Soc. 19 Meets At Wissler Home

Society of Farm Women  
No. 19 met recently at the  
home of Mrs Emert Wissler,  
Mount Joy RD 1. Mrs. Geo.  
Baker was co-hostess.

Miss Verna Weaver, Littitz,  
spoke of her teaching experi-  
ences in Laborador, where  
she taught for one year.

New officers were install-  
ed and two cartons of canned  
fruit were packed for Heart  
Haven.

A bus trip to the Philadel-  
phia Flower Show in March  
was scheduled as a Society.  
activity.

Mrs John Ruhl and Mrs  
John Bare will be hostesses  
at the next regular meeting  
in the SPABC building

## Impure Water A Danger Warns Local Water Expert

Lancaster "Purewater is as  
important as pure food," ex-  
plains Cliff Lehman, water  
Conditioning Consultant of  
Century Co., 15 W. Chestnut  
Street

"But for local residents  
who depend on their own  
well, lake or pond for drink-  
ing water, purity of the wa-  
ter may only be hoped for,"  
he added.

The solution to the prob-  
lem of impure water is  
chlorination. Although chlori-  
nation is normal procedure  
in most city water services,  
it does not extend to  
homeowners depending on  
their own wells, lakes and  
ponds.

Rather than risk sickness  
from unchlorinated water,  
Mr Lehman advised farm  
and suburban folks who have  
their own water supply to  
install automatic chlorina-  
tion-dechlorination units.

Chlorination kills all water  
borne germs that endanger  
health and even kills bacteri-  
a that cause stains and cer-  
tain odors that result in  
many folks to cut down on  
their needed daily consump-  
tion of water. Cliff Lehman  
explained inexpensive chlori-  
nation - dechlorination units,  
like the ones installed by  
Century are available.

"There are a lot of myths  
about the purity of well wa-  
ter that tend to make most

persons unconscious of the  
health hazard that lurks in  
what often appears to be  
crystal clear water.

"And what today may be  
pure water pumped from a  
well, tomorrow can be con-  
taminated" he warned.

The housing boom, coupled  
with the big increase in the  
number of factories, has  
made waste disposal and  
seepage of contaminated ma-  
terials a big problem  
Streams and rivers help  
spread poisons that seep  
through sub-strata ground  
levels into drinking water  
supplies And septic tanks  
are making the situation ev-  
en worse

"Rather than risk your  
health and that of your fam-  
ily," he advised, "install au-  
tomatic chlorination - dech-  
lorination units. There's no  
need not to, when the equip-  
ment is really so simple and  
inexpensive."

What are some of the ap-  
plications for such equip-  
ment? Besides household us-  
es, he replies, install them  
for a successful farm pond,  
livestock watering system  
(they get sick, too, from im-  
pure water) or a swimming  
pool

"If you've got a water  
problem—I've got the answer.  
And it's one that won't  
be out of line with your  
needs," Says Mr. Lehman.  
Adv.

# Order Limestone Now for Snow

# Or Frozen Ground

Limestone can be spread on top of snow, as soon  
as trucks can enter the field. It will not leach away,  
but will settle down to the soil and be ready to go  
to work for you in the spring. It will not wash a-  
way unless spread on steep slopes.

Another excellent time to spread limestone is  
when the soil is frozen or well firmed. The lime-  
stone drops into the cracks of the frozen soil and  
is then ready for spring action.
