vealers also steady to strong. prices for canner and cutter cows at the highest levels since 1952. Stockers and feeders fully steady.

Chicago wholesale dressed beef prices mostly steady for the week; loadlots mostly prime 1100-1300 lb. slaughter steers 35-36, eight loads 36 including some at the price which were feedlot mates of 36 50 cattle last week, loadlots mixed choice and prime steers 33-34.75, some mostly prime 1000-1065 lb. weights 33.50-34. Bulk choice steers 28.75-32.50, few loads high choice over 1150 lb. weights up to 33. Good and low choice, steers 26.50-28.50, mostly at 26.75 up Standard and low good 24.50-26.50, load utility and standard 1250 lb. weights 24.25, some utility dairy bred steers 23-24; small supply high choice and mixed choice and prime heifers 29-30, part load steers and hei-

fers mixed 31 and load high choice and prime 1160 lb. mixed steers and heifers 32.50

Bulk good and choice heifers 25.50-28.50, borderline good and choice 27.25-27.50, utility and standard heifers 20.50-25, several loads mixed standard and good calfy heifers 24.50-24.75.

Few standard cows sold up to 23.50, utility and commercial cows 19-21.50, mostly 21 down, most canners and cutters 17-20, few light and shelly canners down to 14.50; Most utility and commercial Bulls 23-25.50, few head commercial bulls 25.75-26.

Few good and choice vealers 34-35; most standard and good 27-33, cull and utility 14-26; several loads good and choice under 700 lbs stock steers 29.75-36, few medium light stockers down to 26.50; good and choice 800-1035 lb feeding steers 26-28.85, few common and medium stockers and feeders 22.50-25.50, medium 775 lb. wghts. 25.90.

A meeting conducted by the USDA to determine area sentiment toward a New York milkshed "check-off" promotion fund resulted in an overwhelming majority of the farmer's present expressing support of the plan to raise \$750,000 annually for boos fluid milk sales.

**\* Sloat Urges**

(From page 1)

With the wet bath solution dip the freshly cut seed long enough to thoroughly wet their surfaces. Seed may be planted at once or may be stored and planted as soon as soil conditions are favorable.

Solution should be discar-

ded and a new bath mixed when dirty. Best results are obtained when not more than 150 bu. are treated in 100 gallons of solution.

Tests with seed dusting indicate this method may be used, Sloat said. Use Farbam 10 per cent, Streptomycin one-tenth of one per cent with remainder of dust inert filler.

**BURLING'S CHICKS  
 FOR EVERY NEED**

Once again, to add to our long string of victories, our Leghorn and New Hamp chicks at NEPPCO's 1958 Egg-to-Chick Show won two firsts out of only two Burling entries.

We have won firsts at this show almost without a break, and hold two Grand Championships.

Since incubation and selection of chicks used for showing is beyond our control, this is further proof of high quality — the kind we deliver to you.

Scoring of our White Leghorn entry, first in the Egg Production Division, was as follows:

Egg Quality Score . . 89.25  
 Hatchability Score . 88.3  
 Chick Quality Score 93.0  
 Total Score . . . . 92.47

There were 9 different entries in the White Leghorn Class. In the Miscellaneous Class, with 5 or more entries of the same breed, Burling's New Hamp's scored 84.67 points for top honors.

**Old Hen Eggs Used**

The eggs which we used for this competition were old-hen eggs, which do not score as high in quality as

pullet eggs. We have always used old-hen eggs for this show, which makes these winnings more significant.

**Burling's Big 8**

1. Carey's Famous Random-Sample Test winning Leghorns. A customer made a 270-egg average on 1800 birds!
2. Merryknoll Sexlink (Rock x Red)—Bred by electronic "brain" methods.
3. Golden Sex-Links—Harco male x Cobb's White Rock female.
- And Tops For Meat AND EGGS. . . .
4. Cobb's White Rocks—Broiler test winners.
5. Vanitress X Cobb White Rocks—Popular for meat.
6. Cobb's - Garrison White Rock x Cornish Cross.
7. Burling's New-Hampshires
8. Gove's Barred Rocks.

Buy Burling's Big Healthy Chicks — as proven by many top prizes at Chick Shows and Random Tests.

**BURLING'S HATCHERY**

BOX F

OXFORD, PENNA.

With Allis-Chalmers D-Series Tractors, Power Director teams with TRACTION BOOSTER system to create 42% more pull for your heavy work. The 4,100-lb. D-14 equals a 6,400-lb. tractor in pull; the 5,300-lb. D-17 equals a 7,500-lb. tractor in pull.

On the average, however, you will use your tractor for heavy work only 17% of the time. For the 83% of the time you are not doing heavy work, a D-Series Tractor will save you as much as 16% in fuel costs. D-Series Tractors use Power Director and TRACTION BOOSTER system to get more pull when needed . . . instead of carrying around excess, built-in weight. Let us show you.

TRACTION BOOSTER is an Allis-Chalmers trademark.
