## Farm Storage Is Increasing

More than 10 million bushels of grain storage capacity was placed on the Nation's farms in the first quarter of 1959 as a result of the Department of Agriculture storage facility loan program, according to Landis G. Becker of the Lancaster County Agricultural Stabilization and Conservation office.

Storage facility loans totaling more than \$2,000,000 were made during the January-March period to approximately 2,700 farmers, Becker said. In addition, 182 farmers borrowed a total of \$268,000 to finance mobile crop drying equipment for use in connection with storage facilities.

Loans for up to 80 percent of the cost of grain storage facilities are available through Agricultural Stabilization and Conservation offices to help farmers meet the needs for farm grain storage.

Since this program began in 1949, the loans have been used to add 412 million bush. to the Nation's storage capacity and to install drying equipment valued at more than \$5,000,000.

## 4-H Center

(From page 1)

Center sit away from the street on a beautiful landscaped campus. Their classic design is accentuated by the expanse of green lawns, trees and a formal garden framed by a horseshoe driveway.

Each building is named in memory of a great 4-H Club leader. The main building honors C B Smith, of Michigan, former chief of the office of Cooperative Extension U S Department of Agriculture.

The two smaller structures are named for Miss Gertrude L Warren, of New York, who was in charge of Girl's

## This Week in Washington

by Clinton Davidson

### Freedom Academy

Bills before the Senate and House to create a Freedom Commission deserve the thoughtful study of everyone who values his freedom under our democratic system of government.

The naming of such a Commission would be the first step toward the creation of a national Freedom Academy that would have the same status as the military and naval academies at West Point and Annapolis.

The purpose of such an Academy would be to train "freedom fighters" of the Free World to "battle conspiratorial, organizational and operational techniques of Communism."

Bills to establish the Commission and Academy are sponsored by Sens. Karl Mundt (R., S.D.), Paul Douglas (D., Ill.), Clifford Case (D., N. J.), and by Reps. Sydney Herlong (D., Fla) and Walter Judd (R., Minn.).

**A Third Front**  
The Communists are waging the cold war on three fronts — military, economic, and propaganda. The last is the only one on which we are doing an ineffective job of defending democracy.

"While the Free World has developed a powerful defense establishment to prevent a 'hot war'—or fight one if attacked—we have tragically ignored in great measure the political battlefields of the cold war," Sen. Mundt points out.

On the military front, the Communist nations and the Free World are rated by many experts as about even-up. The economic strength of the Free World is undeniably superior.

Russia's superiority in the use of propaganda is also acknowledged. The Kremlin spends billions of dollars to train propaganda agents and to finance their infiltration into the Free World nations. We have taken no effective countermeasures.

**Fifth Columnists**  
For every Kremlin-trained agent in the Free World there probably are hundreds of "fellow travelers" who form an extremely dangerous Communist "fifth column."

Sen. Mundt said in a recent Senate speech that communist agents "have infiltrated our universities, our cultural and religious groups, our labor and farm organizations, our newspapers, radio-TV and movie industries."

Sponsors of the bills say the purpose of the Freedom Academy would be to train students "as to the methods of communists, and learn techniques to effectively counteract communist tactics which make use of infiltration, propaganda and espionage."

"It is not" Mundt explained, "our intention to emulate the communist conspiratorial techniques in conducting our side of this cold war into which we have been reluctantly but realistically forced."

"Our methods and techniques can and should be developed in full harmony with our democratic principles, our Christian ethics, and our civilized concept of morality."

"With right on our side, we should be able to involve methods and techniques far more effective than those utilized by the communists to exploit those with whom they come in contact."

magnolia.

There is ample parking area on the campus for about 100 cars and city bus service is available at the front drive of the Center.

Bible Material: I Kings 21 1-22 40.  
Devotional Reading: Jeremiah 22:1-5, 13-18.

## Lust For Power

Lesson for June 7, 1959

IS THERE one sin from which all other sins come? Many theologians think there must be; but they do not all agree on what sin is the root-sin of all the rest. One sin which has been singled out for this doubtful honor has been called "the lust for power." It is not wrong to desire power;

otherwise Jesus would have severely condemned the two disciples who wanted to sit on thrones at his right and left. It is not wrong to wish to influence other persons, otherwise it would be a sin to run for president of anything. Nevertheless, desire for power can be so exaggerated that it becomes a passion, a soul-destroying passion.

Dr. Foreman

### Law and the Lust for Power

There is a first-class example of how the lust for power can run away with a man, an example of how other sins are spawned by this one, in the Bible story of King Ahab and the private citizen named Naboth. Nearly all readers of the Bible know this story, and those who do not know it should look it up (see the references given here), for it is a dramatic story. King Ahab was of course one of the wealthiest men in the kingdom. He had all he needed and more besides. But he wanted the vineyard of the small farmer Naboth. He wanted it so much that he was willing to break the law of the land, he was willing to go even as far as murder, to get what he wanted.

Ahab could never have got that vineyard by legal means. If Naboth did not want to sell, there was no law to make him. More than that, according to the law of those times, Naboth was required to hold on to his property. Ancient Hebrew law saw to it that every family was provided with land, and must

## Now Is The Time . . .

TO PREPARE GRAIN BINS—grain harvest is approaching and age bins should be cleaned and the control of grain insects. One main source of infection in the is old grain left in the bins or cracks and crevices of the building grain should be cleaned out and possible, or fumigated if any ammonia be held over. Then the bin sprayed using either one quart Methoxychlor or one pint of 572 thion per 2½ gallons of water used square feet of bin surface. This should be done days prior to the filling with new grain so that the will be dry.

TO GET THOSE WEEDS—Many of the comm are annuals that reproduce seeds for new growth are not mowed prior to heading. One of the easiest control these weeds is to prevent them from going this year; that will remove the chances of more weeds next year. In many fields and pastures mowing four to six weeks during the season will give good The spraying with 2, 4-D or other chemicals will only the plant but in many cases destroy the The amine form of 2, 4-D is the only safe one for the control of weeds on their land. With no such as Canada Thistle Pennsylvania laws demand

TO ROTATE SHEEP PASTURE—One of the problems in sheep production here in the east is worms; with high temperatures and high humidity eggs survive for long periods of time. This requires a system of pasture rotation if the flock is to be freed from these worm eggs. The grazing area should be divided into several parts so that the sheep are moved one to the other at three to four week intervals. A problem can become very serious where a large number of sheep are grazing on a limited acreage constantly out the season year after year. The salt-phenanthrene should be kept before the flock at all times as a preventative measure.

not get rid of the erty, large or small first "stumped" by spurred by his wife of Lady Macbeth, through the law, murder before he to get that one vine

### Property for use

History is filled with of men who have been power that like Ahab attention to laws that held them back from wanted. We have seen time in Hitler almost men in high places country

But there is another the lust for power many persons seem acquiring property they can no longer they have enough, ing, they never feel they want more a thing becomes almost

One wise thinker believes that this sort of thing Ahab of wanting security man wants to feel up wealth and property like walls to shut He does not care just so he himself a thinker sees in all support the proposal property for use a property for power generous to society ing to have what is a sin.

### My Rights and

One thing is certain Elijah, being God's the king's, saw in 'Ahab had done the in being a king who the right to disregard nothing in being a man the right to of God Ahab must "My rights go as reach." But the rights of a man, especially man, are very seldom reach. To put the words: Don't think you can get by with right to do anything "When you, whoever to think your rights others' rights, take has already begun too.
