

● Some Special

(From page 7)
floured board Cove. and let rest 10 minutes.

In a 9-inch square pan, combine 1/2 cup brown sugar with 1/4 cup melted butter. Arrange 18 pecan halves over sugar mixture. Roll dough to form a 12-inch square. Brush with melted butter. Sprinkle with cinnamon.

sugar (made by combining two tablespoons granulated sugar and one teaspoon cinnamon).

Roll up as for jelly roll, seal edges firmly. Cut in nine slices; place rolls cut-side up in pan. Cover, let rise in warm place until double in size.

Bake in moderate oven (375 degrees 25 to 30 minutes. Remove from pans immediately. Makes nine pecan rolls.

What Makes Meringue Form Beads or "Leak"?

Beating the egg whites too much before you add sugar tends to cause meringue to leak.

To get the best sweetness and texture for meringue use two tablespoons sugar to each egg white. Beat the egg whites until foamy, then add sugar gradually.

It's best to put the meringue directly on the hot pie filling. Then it's not apt to leak or to form beads.

● USDA Defines

(From page 1)

ascertained by weighing the lambs as they are sold to the buyer.

While this may not be an unfair practice per se, USDA recommends this lamb buying practice be discontinued because it lends itself to—or leaves the way open for—confusing and hence deceptive practices.

The confusion may be used by a buyer as a means of forcing a producer to accept an unwarranted discount.

In making this policy announcement USDA is not

discouraging payment of the true market value for heavy lambs. This statement of general policy becomes effective upon publication in the Federal Register.

Copies of the policy statement are available from the Livestock Division, Agricultural Marketing Service, U. S. Department of Agriculture, Washington, D. C.

● PENB Board

(Continued from page 1)
opinions on the issue to PENB directors. Industry reaction to both these requests were expressed in the ballots cast.

reflects board and industry thinking, Thomas, speaking for the Board, stated that immediate steps have been taken to make arrangements for a meeting with egg industry leaders at the APHF Convention in St. Louis in July to provide a forum for discussion on this vital issue and to initiate a unified plan to strengthen the egg voice in the poultry industry.

It is hoped, thereby, to develop greater stabilization in the egg industry in regard to

promotional and marketing, and, at the same time, build greater confidence in the industry in a promotion program.

The Department of culture has announced the interest rate to be paid producers and price-support loans on crops will be 3% per year.

TOPS IN 3-POINT HITCHES...

THE
JOHN DEERE
UNIVERSAL
HITCH...

WITH LOAD-AND-DEPTH CONTROL

It's the most outstanding hitch on the market—the Universal 3-Point Hitch for John Deere "530," "630," and "730" Tractors. This hitch is fully adaptable to all types of 3-point hitch equipment, including competitive models. It features exclusive Load-and-Depth Control which automatically adjusts the implement for varying soil conditions to permit you to maintain ground-travel speed...

to achieve more uniform tillage... don't have to touch a lever! Quick change from one tool to another, high clearance for transporting, greater field maneuverability and simple adjustments from the tractor— you'll enjoy all these advantages with the John Deere Tractor with the versatile Universal 3-Point Hitch. Ask us soon for a field demonstration on your farm.
