

For the Farm Wife and Family

Soft Wheats Remain In Export Series

The U. S. Department of Agriculture today stated in response to inquiries that no change is contemplated in the eligibility of white wheat and soft red winter wheat under Title I, of Public Law 480.

These wheats, including all subclasses of each, were made eligible for export last summer.

Subclasses included under the white wheat class are hard white, soft white, white club, and western white, and those under the soft red winter wheat classification are red winter and western red.

The supply of these wheats on the basis of current outlook is sufficient to meet the needs for domestic utilization, adequate carryover, exports for dollars, and exports under the Commodity Credit Corporation credit and barter programs, and also provide quantities for export under P.L. 480 Title I.

Contaminated Water Can Effect Your Farm Income

Lancaster, Pa. — Disinfecting water is of utmost importance because the removal of disease producing organisms from water is a prime prerequisite for its safe use.

And chlorination offers the most dependable method of disinfecting water, says the Joint Committee on Rural Sanitation. U. S. Dept. of Health, Education and Welfare.

Crops irrigated by water containing sewage pollution may transmit disease. Waters carrying industrial pollution such as chemical wastes, can damage the crops they irrigate, says U. S. Dept. of Health. The increase in use of supplemental irrigation in the East has raised questions of quality of water. Many natural streams formerly relied on to provide water for livestock have become so polluted that their continued use is unsafe.

Water can be sparkling, clear to the eye, and taste good, yet swarm with these deadly bacteria, nor is merely a deep well the answer.

Only the proper use of chlorination and dechlorination device according to Cliff Lehman, can provide constant and continuous protection against the menace of water borne diseases.

For the answer to your water problems please call Cliff Lehman at Century Co., 15 West Chestnut St, Lancaster EX 4-9365, or stop in the office any day. We are also open Tuesday and Friday evenings.

Cliff Lehman

red) 1/4 cup sugar
1 teaspoon salt
1/2 cup vinegar
1 cup dairy sour cream
Shred cabbage Combine sugar, salt, vinegar, sour cream, and blue cheese. Pour mixture over cabbage and toss lightly. Cover and refrigerate for at least 30 minutes before serving.

Hot or Cold
Sa'mon - Tuna Salad
2 7-3/4 ounce cans salmon
2 7-ounce cans tuna
2 cups chopped celery
1 1/2 teaspoons salt
Dash of pepper
5 tablespoons lemon juice
3/4 cup mayonnaise
Slivered toasted almonds
Break salmon and tuna into chunks and mix with celery, salt, pepper, lemon juice and mayonnaise.
To serve COLD: Chill salad in refrigerator. Arrange salad greens in bowl and heap salmon-tuna mixture on top. Sprinkle with slivered almonds and serve. Yield:—

celery, sliced

To serve HOT: Place in a 1 1/2 quart casserole. Top with slivered almonds and bake in a hot oven (450 degrees) 15 minutes. Yield.—six servings.

Two-Way Cole Slaw

4 cups shredded cabbage
1 cup finely sliced radishes
1/2 cup mayonnaise
2 tablespoons vinegar
2 teaspoons sugar
1 teaspoon salt
1 teaspoon celery seed
Dash pepper

Combine cabbage and radishes in a medium-sized bowl. In a smaller bowl, combine remaining ingredients. Toss lightly with vegetables.

To serve cold, chill slaw in refrigerator until serving time. To serve hot, place in skillet and cook over low heat five minutes, stirring frequently. Makes six servings.

REPORTS FROM crop correspondents of the USDA throughout the U. S. show that milk cows in correspondents' herds produced an average of 23.23 lbs. of milk per cow on May 1. This was four per cent above last year's peak for May 1. Production was at record levels per cow in all regions. The total amount of milk produced on farms in April was 11,171 million lbs., slightly below April 1958, but five per cent above the 1948-57 average. Latest USDA figures also show that 40.9 billion lbs. of milk were produced during the first four months of 1959, as compared with 41 billion in 1958.
