## Some Summer Coolers

by Mrs. Richard C. Spence

Iced tea has become one of the most popular summer drinks, even outranking lemonade in some localities. There is a new spiced tea on the market now which adds a delicate flavor to tea.

With spiced tea as a base add cranberry juice for a combination as thirst-quenching as iced tea, yet with an added zesty flavor you'll really enjoy. And the color is so pretty.

### Cranberry Iced Tea

1 pint cranberry juice cocktail  
1 pint orange spice flavored tea (follow directions on box)  
Mix cranberry juice and tea. Serve over ice with sprig of mint. Makes one qt.

Here's a combination every one in your family will like—

### Cape Cod Punch

2 teaspoons or 2 tea bags orange spice flavored tea  
1 tablespoon instant breakfast drink  
¼ teaspoon cinnamon  
¼ teaspoon nutmeg  
¼ cup sugar  
1 quart freshly-boiled water  
1 pt. cranberry juice cocktail

Add tea, instant breakfast drink, spices and sugar to freshly-boiled water. Let steep five minutes. Stir in cranberry juice cocktail. Chill and serve with ice. Makes 1½ quarts

### Cranberry Refresher

2 orange spice flavored tea-bags  
2½ cups freshly boiled water  
2 pints cranberry cocktail  
2 (7-ounce) bottles lemon lime carbonated beverage (that's 7-Up)  
Let tea bags steep five minutes in freshly boiled water. Add cranberry juice. Let chill thoroughly.

Just before serving add carbonated beverage. Serve over ice. Makes one quart.

### Grape Lemonade

½ cup lemon juice, 3 medium.  
¾ cup orange juice, 2 med.  
¼ cup sugar, or to taste  
1¼ cups chilled grape juice  
1¾ cups ice water  
Lemon slices  
Mint

Remove seeds from lemon and orange juices, but do not strain. Stir in sugar until dissolved. Add remaining ingredients.

Place two tablespoons of crushed ice in each eight oz. glass and fill with the lemonade.

Garnish with a lemon slice over rim of each glass and add a sprig of mint. Makes five servings.

### Fruit Fizz

½ cup lemon juice  
1 cup orange juice  
¾ cup sugar, or to taste  
1 pint gingerale, chilled  
Ice cubes

Squeeze lemons and oranges, remove seeds but do not strain juices. Add sugar and shake or beat to mix thoroughly. Add gingerale and serve with an ice cube. Makes five cups

### Fruit Juice Medley

1½ cups orange juice, 3 medium  
¾ cup lemon juice, 2 med  
1 cup pineapple juice chilled  
2 cups ice water  
Sugar to taste

Combine all ingredients and serve well chilled. Five to six servings.

### Milk Drinks

Good drinks made with milk fit into meals and into between meal snacks. The cold, flavored beverages include egg-nogs and milk shakes flavored with molasses, banana, strawberry or other fruit puree as well as the familiar chocolate, vanilla, spices or maple.

For these hungry, active, growing youngsters, add an extra scoop of ice cream to the milk beverage. If there's need to keep calories low, make flavored beverages with skim milk—fresh or dry or evaporated.

For something hot, most people think of cocoa with milk. Adults in the family may like coffee European style, pouring hot milk and hot coffee together into the cup. The double milk drinks are made by adding dry milk to fluid milk and thus step-

ping up the milk value. Ingredients for one serving of molasses milk, for example, are:

### Molasses Milk

4 tablespoons dry milk  
Pinch of salt  
1 cup fluid milk  
1 tablespoon molasses  
Mix dry milk and salt; mix fluid milk and molasses. Add dry ingredients to liquid and beat. Stir or shake until smooth.

### Taffy Float

1 tablespoon molasses  
Milk  
1 scoop (¼ pint) vanilla, and smooth

chocolate, or cream  
Put molasses in jar; fill half full with cream. Add ice cream, stir well. VARIATION: A few spoons instant coffee molasses-milk blend, beating ice cream and milk.

### Taffy Banana Milk

1 fully ripened banana  
¾ cup milk  
1 tablespoon molasses  
Dash of salt  
Mash banana until smooth. Add

## Safe, Pure Water Is As Necessary As Pure Food

"Water is the most important single item in the human diet, being a major ingredient in foods as well as beverages," — says Cliff Lehman of Century Co., 15 West Chestnut St., Lancaster. Doctors recommend more water for better health, particularly in the case of children. Experience proves that clear and taste-free water is unconsciously consumed in greater quantities than dirty, odorous, and bad-tasting water.

Chlorination in municipal and private water supplies is essential to safety and should be welcomed by everyone. The disagreeable taste is readily removed at the point of use by the Everpure water purifier, providing as sparkling and taste-free water as a mountain spring.

Coffee, our most popular beverage (95% water) is no better than the water from which it is made, regardless of the coffee blend used. Dirt in the water makes coffee and chlorine lends disagreeable off-tastes and Everpure water permits the beverage to bring out the best taste and fragrance of the coffee blend used.

Clear and taste free Everpure water used in the preparation of tea, frozen orange juice and other beverages with water results in drinks of a quality in keeping with the concentrates from which they are made.

You can have all the mountain spring quality water you want at a fraction of a cent per gallon from your faucet. Call and ask me about Everpure.

For the answer to your water problems please call Cliff Lehman at Century Co., 15 West Chestnut St., Lancaster, Pa. EX 4-9365, or stop in the office any day. We are open Tuesday and Friday evenings.
