

Keep her in the good health needed for maximum production!

Disease affects a cow's productive capacity, often leeps her out of the milking line.

That's why so many dairy farmers are now using feels containing AUREOMYCIN®. This broad-spectum antibiotic helps provide the good health cows need to reach their maximum milking potential.

AUREOMYCIN, in feeds, effectively aids in the contol of three costly diseases: Respiratory disease (thinotracheitis-shipping fever complex), foot rot and bacterial diarrhea.

CALVES, too, need AUREOMYCIN! Milk replacers and starter feeds containing AUREOMYCIN get calves off to a good start, reduce scouring, promote up to 35% faster growth.

Ask your feed manufacturer or your feed dealer for dairy feeds containing AUREOMYCIN. Keep herds in better health! American Cyanamid Company, Agricultural Division, New York 20, New York.

 $@ AUREOMYCIN \ is \ American \ Cyanamid \ Company's trademark for chlortetracycline.$
