## OLIVER No. 241 All-Purpose DISC HARROW

Watch it pulverize the hardest ground, smooth your roughest field into a mellow, level seedbed. See it roll over rocks and stumps with ease.

A semiflexible frame and spring-cushioned gangs permit the No. 241 to climb over a stone like a caterpillar. No damage to blades or other parts. Your tractor doesn't have to hoist and drag it across an obstruction. Yet, it's rigid enough, strong enough, heavy enough to cut the toughest surface.

Buy an all-purpose Oliver and you'll have full angle cutting, thorough shredding of trash, accurate depth

control in any soil. You'll cross waterways, travel to and from fields easier. You'll get prelubricated, sealed-forlife disc and wheel bearings. Built in four sizes—9½ to 13 feet.
