TUESDAY EVENING, JANUARY 12 (Turn to page 10)

Quality, Quantity

(From page 6)

members of the Future Farmers of America, the Future Homemakers of America, and the 4-H clubs.

Many state farm organizations set aside this week for their annual meetings. About 35 state-wide associations usually meet in Harrisburg during the week. The Farm Show buildings have many meeting rooms including an auditorium seating 500 people.

Free parking is available on 45 acres adjacent to the buildings. At the present time only 15 acres of this are paved, but the balance of the surface is covered with cinders. The area can accommodate approximately 14,000 cars at one time.

Opening officially Monday evening, January 11, with a welcome from the Governor of the Commonwealth and a Rodeo staged by the Pennsylvania State police, the show

NEW FLOWER FOR 1960

An All-American selection for 1960 is a large flowering annual phlox named Glamour. Mrs. Lynn B. Smith, Penn State extension floriculturist, says it is a pleasing salmon with a darker eye. It grows to a height of 12 inches.

Bred heifers need exercise every day.

A depreciation schedule is worth money to the farmer when he makes out his income tax return, reminds James Becker, Penn State extension farm management specialist.

will close at 6:00 p.m. Friday evening, January 15.

SEE THEM AT THE FARM SHOW

Now...
4 dynamic D's
...1960 New!

WHICH ONE FOR YOU?

Is it the 4-5 plow D-17 that's been setting new records in more work with less fuel? Or the D-14 — 3-plow winner with the same qualifications as the D-17?

Both have better field performance from TRACTION BOOSTER system with new wide range for greater, smoother weight transfer. Improved hydraulic system control eases mounted implements to the ground.

Is it the new 1-row D-10 or 2-row D-12, both in the 2-plow class? Their POWER-CRATER engines introduce new hi-torque "throttled-down" power to plant or cultivate tiniest seedlings...yet handle heavy loads.

Drive the dynamic new D Tractors... they are ready now for the 1960's.

TRACTION BOOSTER and POWER-CRATER are Allis-Chalmers trademarks.

Farming Expenses! Too High?

2 WAYS TO KEEP 'EM DOWN

1. Use "Calphos" liberally on all stable manure to retain valuable nutrients — cheapest way to feed phosphorus starving soils
2. Use "New Jersey Greed Sand" to control ammonia, keep poultry houses sweet and dry. Apply regularly as needed on floors and drop pits.
