the Result of Scientific "Know-how"

DeKalb's method of producing layers is based 100 percent on scientific "know-how" . . . and Science is the key to Quality. Yes—the hard-working, thrifty DeKalb Layer has introduced a new egg quality standard of its own. The reward to the poultry raiser . . . we believe, is greater security, because of greater demand for a high-quality product . . . quality that often results in higher prices from the egg buyer. The consumer's reward comes with the breaking of the DeKalb Egg with its clear, firm albumen and full, golden-colored yolk . . . an egg that's as perfect as DeKalb Science can develop. Yes, DeKalb's own new standard of egg excellence is the result of scientific "know-how." It's your kind of Quality.
