above a year ago levels in some instances in the Phila-

delphia area. Demand mostly fair with some whole-milk powder production reported in the northeast with Boston and Philadelphia moving

heavy surpluses to separators. Skim was going to drivers. Lower prices at New York for bottling quality milk per 40 quart unit at \$5.27 to 5.32. Certain ancient friends won't let you grow up, so they keep calling you Doc or Butch long after you think you are entitled to Sir.

Ohio Holstein Breaks Record For Butterfat

Brattleboro, Vermont registered Holstein owned by the Gelbke B. Vienna, Ohio has added sparkle to her breed's 20th Jubilee year with all-time, all-breed record.

The Holstein - Friesian Association of America announced that the production of Breezewood RA Pa. 6059 (GP) officially 36,821 lbs of milk, including an unprecedented lbs. of butterfat.

"Patsy" started lactation at five years, 2 and is believed to be the youngest cow of any breed ever to capture the butterfat championship. She is also the first to trick on twice-daily milking.

The previous national record of 1,733 lbs. of butterfat was established last year by three-time milking year old Brown Swiss in New Jersey.

As an added claim to fame, the Gelbke Holstein has set a record-shattering 300-day lactation without a day of dry period.

In fact, she missed only one milking in a new Ohio state record Junior four year old Herd Improvement test by freshening on the day of her previous period.

She is officially "Good Plus" and is the middle link in a three-generation cow family.
