

LEARNING CRAFT SKILLS WAS PART OF THE program of the 4-H camp this week. Around the table from left to right are Barbara Jenkins, Spruceville Farm, Littitz R1; Judy Geltz, 2211 Hathaway Road, Lancaster; Joanne Denlinger, 2351 Horseshoe Road, Lancaster, one of the camp counselors; Bette Umble, 2350 Old Philadelphia Pike, Lancaster, also a counselor; Lynne Shelton, 950 Rohrerstown Road; Nancy Hollinger, Lancaster R3; Cindy Leary, Lancaster R3 and Judy Rohrer, Littitz R2. In addition to crafts, the campers at Camp Chiquetan this week had sessions in archery, riflery, swimming, nature study, and first aid. Other counselors for the 34 campers in addition to Winthrop Merriam, assistant county agriculture agent and Mrs. Norma DeLellis, associate Home Economics county agent were Mrs. Harold Fry, Mrs. Jean Singer Thomas, Miss Mary Ann Musser, Miss Patty Musser, Miss Umble, Miss Denlinger, Victor Longenecker, Darvin Boyd and Glenn Porter. —LF PHOTO

County Holstein Breeders Plan Two-Day Tour To N.Y.

Plans for the first two-day night. Lancaster County Holstein-Friesian Association are completed, members were informed this week.

The tour, scheduled to leave Lancaster at 6.30 on the morning of July 19, will make its first stop at the Corning glass works, Corning, N.Y.

The tour will continue up through the picturesque countryside between Lake Cayuga and Lake Seneca to a milling company at Cayuga, N.Y. and on to Syracuse where the Holstein breeders and families will spend the

On Wednesday, June 20, the group will see the famous Harden herd where more cows have milked 100 lbs per day than at any other farm in the east

The last stop on the tour will be the Yates Homestead farms where 160 Holsteins are housed in pen stables. This 800 acre farm in Onondaga County, New York, has been farmed by the same family since 1798.

According to Committee members George A. Rutt, Donald Eby and Paul Wenger, reservations must be in the hands of the committee before June 23.

Advertisers will be glad to have you mention Lancaster Farming when answering advertisements.

Wheat Quota

(From page 12)

If at least two-thirds of the farmers who vote in the referendum approve the 1961 quotas, then quotas with penalties on "excess" wheat will be in effect, and price support will be available on the crop at not less than the minimum support to be announced before the referendum.

If more than one-third of the votes oppose the quotas, there will be no quotas or penalties in effect, and price support will be available at 50 per cent of parity to the farmers who comply with their allotments.

This is the eighth successive year for which wheat marketing quotas have been proclaimed. They have been approved in a referendum for each of the past 7 years.

When buying bacon, look for clear white, firm fat and uniformly pink lean. See that the fat and lean are mixed together in alternating layers, advises Catherine Love, Penn State consumer economics extension specialist. The proportion of fat to lean is an individual matter. Some persons like wide slices with a high amount of fat. Others prefer thinner, leaner slices. There is no difference in quality.

1 to 3

For every dollar invested in limestone, experiment stations conclude, three dollars are returned in crops.

Where else does one dollar bring three in return? It pays to use agricultural limestone!
