with salt. Add cold water to cover. Let stand at least 12 hours. Drain, rinse, drain. Combine sugar, mustard seed and vinegar; simmer 5 minutes. Meanwhile pack onions into hot, sterilized jars. Place one red pepper and 1 bay leaf in each jar. Pour boiling liquid over onions to within 1 inch from top, making sure vegetables are covered. Quickly seal each jar. Makes three pints.

PEACH PICKLES

Peach pickles will go well with roasts and chops next winter and they're easy to make

Use firm fresh, unbruised peaches for making pickles. It's best if they are slightly underripe so they'll keep their shape.

You'll need fresh spices and a small bag to hold them for cooking in the syrup. For a small recipe start with about 6 pounds or 3 quarts of peeled peaches.

Make a syrup of 1 pint of vinegar and 3 pounds sugar. Add the spice bag in which you put about 1½ teaspoons ground cloves and 1 small piece ginger root. Add two sticks cinnamon directly to the syrup and bring to a

boil. Drop the peaches into the syrup a few at a time and cook until the fruit is easily pierced. Let stand in the syrup overnight.

Then pack into clean jars covering the fruit with syrup. Seal jars and process in a water bath at simmering for twenty minutes.

Difference between a poor man and a rich man is that one worries about his next meal while the other worries about his last one.

Isn't it odd that the easier a gal is to look at, the harder the fellows stare?
