

Dress Review
(From page 12)

Greens and browns predominated in the colors but some gay prints also were shown. All the Lancaster County

entrants won the right to compete when they were chosen at the county 4-H clothing club roundup and dress review at Millersville on August 25. Over 600 members of the sewing clubs participated.

ALL 'Certified' SEED IS NOT ALIKE

DON'T LET ANYBODY tell you all Certified seed is the same. There IS a difference! A. H. Hoffman Seeds, Inc. is not only the largest producer of "Certified" winter grains in Pennsylvania, but the superior quality of Hoffman "Certified" seeds exceed the state certification standards by a wide margin.

FOR EXAMPLE:

Penna. Certification Requirements for Barley	A. H. Hoffman's Certified WONG BARLEY (4 year average)
99.00% (minimum) — PURITY	— 99.76%
1.00% (maximum) — INERT MATTER	— 0.23%
90.00% (minimum) — GERMINATION	— 95.00%
46 lbs. (minimum) — WT. PER BU.	— 50.6 lbs

The blue certification tag is not enough. The Hoffman brand tag on the seed you sow can mean bigger crop profits for you. That fact has been demonstrated now for 60 years.

BLEACHES IN LAUNDRY Sanna Black, Penn State home management specialist, says the results of bleaching are safe for all fabrics and with sodium perborate colors and tend to whiten bleach-won't be so noticeable as with the chlorine type bleach but fabrics won't weaken so much with them. Sodium perborate bleaches are sold under various trade names.
