## Local Feed Firm Adds To Staff

A recent addition to the staff of Miller and Bushong, Inc., feed manufacturers of Rohrerstown is Dr. Woodie Williams, Jr. who recently moved to the Lancaster area from College Station, Texas

Dr. Williams did his graduate work at Texas Agricultural and Mechanical College and received his doctor's degree in animal nutrition in August 1960.

Dr Williams will head up Miller and Bushong's expanding department of research and development of poultry and livestock feeds with special emphasis on making the

industry in eastern Pennsylvania more competitive with other poultry and livestock

## ● Fred Frey

(From Page 1)

ager of the show explained that exhibitors are being invited to participate in the carcass class, a new feature of the show, in which the steers will be judged first on the hoof and later on the rail after slaughter.

The cattle will be shown on the hoof Sunday, November 13, and will be taken the following day to a Baltimore slaughterhouse where they will be prepared for the rack and judged. The grand champion and reserve champion carcasses will be brought back to the fairgrounds on Tuesday, November 15, for exhibition.

More than 1,500 livestock are expected to be entered in the Eastern National this year, with prizes totaling nearly \$53,000. The exposition, often referred to as the "livestock show window of the East" will attract entries from at least twenty States and Canada.

DR. WILLIAMS

producing areas of the country, a spokesman for the firm said.

# WHEN YOU ARE READY TO HOUSE YOUR PULLETS!

Pullets moved from range to the laying house find themselves in an entirely new environment, "Strange Quarters", as far as they are concerned.

1. Supply extra fountains around the floor and on the roosts, also feeders.

Some of the birds which looked so nice when you brought them in will have difficulty finding feed and water at first and get uneven and lose some weight unless feed and water consumption is kept at a high level by extra waterers and feeders.

2. Feed #33 EARLY BIRD POULTRY FITTING RATION in hoppers first 2 weeks instead of scratch.

When birds are brought in off range lack of exercise may cause some constipation. Fitting ration helps keep comb color and vigor.

3. When changing to scratch don't have your litter too deep in the house at first.

Scratch in deep litter when pullets are housed is apt to cause a decrease in feed consumption the first few days. Put some scratch in the feeders as well as on the floor at the start.

When chickens are used to their quarters after the first few weeks build up litter gradually to desired depth.

4. If your chickens start to lay on range DO NOT FORGET Oyster shells or Calcite Grit.

Without these the bird will draw on her calcium reserve in the bone structure to make the shells. This will eventually result in some weak and poor birds and poor shell quality.

5. Change to Early Bird All Mash or Early Bird Egg Mash & Grain when birds are laying 5 to 10%. These feeds will give you efficient low cost production of quality eggs with just the right yolk color.

If we can be of help to you in any poultry problem, please call your Miller & Bushong representative or dial Lancaster, EXpress 2-2145 direct.

Still your best crib buy

**New Low Price**

(F.O.B. Stock Points)  
 Over 1200 bu. capacity—means 1st  
 year storage at less than 25¢ per bu.

**EXCLUSIVE SPEEDY  
 ROOF RAFTERS MAKE  
 SPEEDY CORN CRIBS**

## Twice as Fast

Twice as easy to erect

Speedy roof rafters guarantee easy, proper placement of roof panels the first time. Rafters add great strength to the roof. Panels need only to be bolted together in three places. It's another big time-saving feature you get only in Speedy Bar-Lok corn cribs.

Stands up best—lasts longer  
 Wire mesh panels are 5-gauge wire—thick as a 1/4" bolt! No

bulge or sag. Sturdy 26 gauge galvanized roof is securely anchored to 9 steel roof rafters and side panels. Can't blow off!

Come in today and see the Speedy Bar-Lok corn crib. Let us prove to you that Speedy is twice as fast—twice as easy to erect. Let us show you all the other features that make Speedy Bar-Lok your best corn crib buy.
