

● **Vo Ag Survey**
(From Page 1)

In a letter to parents, Allen H Hammon, Supervising Principal of the school said the board does not want to spend the money required for such a course if the boys are going to quit school and not enroll in the course. He said the result of the survey will determine whether or not Ephrata will set up a vocational agriculture department.

If Ephrata should offer vocational agriculture it would become the eleventh school in the county with such a department. The others are Cocalico, Donegal, Elizabeth town, New Holland, Lampeter-Strasburg, Penn Manor, Manheim, Warwick, Pequea Valley and Solanco.

Taneds Acres Knollwood Lolly 33931078 owned by J C. and Jay Garber, Lancaster produced 12,832 lbs of milk and 536 lbs butterfat in 331 days on twice daily milking as a 5 year old

a watershed is reduced, Norton told the 100 members meeting in the Meadow Hills Dining Room.

He called for financial assistance from government, industry and business firms.

Earlier, outgoing CVA President Amos Funk proposed to the membership that it sponsor the establishment of a sediment-sampling station on the Conestoga River in order to direct conservation research within the watershed.

James Humphreville and William R Shultz were elected to three year terms as C-V. A directors.

Reelected were Robert M Binkele, Martin E Greider, Mrs John E Holden, John H Kitch, William H. Kreitz, Carl P Lefever, William M Light, Mrs Miriam Mezler and William S Mershon.

be harvested beginning at

PENN STATE RESEARCHERS Walter I. Thomas and Clifford C Wernham check Experimental field corn designed to produce two or three ears. Known as a prolific, this s'a'k is a cross between popcorn and standard dent-type corn. Dr Thomas is testing this prolific characteristic for possible use in new hybrid corn to be developed by the Pennsylvania Agricultural Experiment Station. This particular corn was grown at the Station's Southeastern Field Research Laboratory near Landisville.

8 30 a m Monday, Oct 24 at husked The Hess Farm is located approximately 1/2 mile southwest of Elizabeth-

town. A fertilizer demonstration is scheduled to be held on Tuesday, October 25, the John D. Burkholder farm beginning at 8 30 a m, the on Litz R3, about 1 1/2 miles southwest of Litz. The Hess, Strasburg R1, will be fertilizer demonstration is set to

begin at 8.30 a.m. on Wednesday, October 29 unless one of the other demonstrations is rained out.

In the event of rain on Monday, the Rutt plots will be husked on Tuesday and the Hess plots on Wednesday morning. The fertilizer demonstration will then be postponed until 2 30 p.m. Wednesday.

HARSH HYDRAULIC HOISTS

The 32 available models come to you with a wide range of lifting capacities ranging from 3 1/2 to 20 tons for your truck, pickup, or trailer. The smooth, trouble free action of a HARSH HOIST has a fast lifting time of from 12 to 160 seconds, which allows more time for actual hauling.

These hoists come to you at an average cost of only 16¢ a day as compared to the \$10-\$15 a day you now spend to manually unload your truck.

To design and build a light weight, low-costing truck hoist suitable for all types of farm use, priced within the average farmer's budget was the aim of "Bud" Harsh when HARSH HYDRAULICS UNLIMITED MFG. CO. began operations. This hoist was built and is now in use throughout the nation.

The HARSH HYDRAULIC HOIST averages only \$328.52 (including Federal excise tax) and maintains a low taxable weight which averages 273 lbs. These economical hoists are built for either back or side dumping, depending upon your need.

Save costly time and eliminate back-breaking labor by unloading with a HARSH HYDRAULIC HOIST engineered for economical, speedy, and durable farm use.
