

## County Council 4-H Members To Present Play

By: David Lapp

The Lancaster County 4-H council with special arrangement by the Dramatic Publishing company of Chicago, presents the play "The Family Nobody Wanted", a three act comedy, at the Manheim Central High School December 9 and 10. Starting time will be 8 o'clock. Tickets will sell for 75 cents at the door.

### Story of the Play

It is always a little difficult for a fellow to present his best girl to his family, but Don's problem is unique. He is wild about an extremely attractive girl who is just a trifle on the stuffy side. The girl's parents are charming and wealthy but they are definitely on the stuffy side.

It is time for the girl to meet the family, and here's the problem Don has a lot of brothers and sisters—some are part Japanese, Balinese, Mexican, and full-blooded American Indian!

Don's parents are a young Minister and his wife. When they found that they couldn't have children of their own, they set out to adopt some. After adopting young Don (now a handsome, interesting teen-ager) they were stopped by the mountain of red tape. However, they wanted many more children. They discovered that some children with Oriental or Spanish or Indian blood were considered unadoptable. Nobody wanted them.

In spite of strong opposition, this young minister and

his wife adopted a household of intriguing unadoptable children. They grew up together. They became brothers and sisters in every sense. They were all part of one family. And now Don the oldest is asked to deny these brothers and sisters—for the sake if the one girl that matters to him.

Included in the cast of characters are the following 4-H club members from Lancaster County. Wibur Hosler, Florence Mae Flory, Glen Foreman, Londa Boyd, Marlin Cassel, Joyce Kreider, Sara Jane Roland, Mary Jane Herr, Barbara Gamble, Lucille Kreider, Julie Erb, Marilyn Peifer, Joanne Newcomer, David Deninger, Edgar Shrom and David Lapp.

### HVESTING DOES NOT REMOVE ALL FALLOUT

Research at the Beltsville Agricultural Research Center in Maryland shows that radioactive fallout cannot be removed effectively from land by the harvesting of crops. The studies showed that harvesting remove only about one-fourth of simulated fallout that had been applied to crops growing on isolated field plots of soybeans and rye. The purpose was to find effective methods of removing radioactive fallout from farm land in case such removal becomes necessary in the future. The fallout detector used in the Beltsville experiments is similar to the device used for arterial oil and uranium hunting, and is more sensitive to gamma rays than a Geiger counter.

Advertisers will be glad to have you mention Lancaster Farming when answering advertisements.

THE DOSS CHILDREN in the 4-H play, "The Family Nobody Wanted" which was presented Dec. 9 and 10 at the Manheim Central H S. Standing left to right: Julie Erb, Marilyn Peifer, David Deninger, Glen Foreman, Edgar Shrom, Joanne Newcomer, and David Lapp.

## FEED FOR TOP FINISH

### with Wayne SWEET MIX

This top quality protein supplement is specially formulated for heavy grain feeding.

It's high Vitamin A and protein content plus the proper mineral balance produces maximum gains and a high degree of finish . . . economically and efficiently.

**FOR SHEEP—feed Wayne Sweet Mix without stilbestrol.**

#### STILBESTROL

Wayne Sweet Mix is available with or without stilbestrol.
