

**This Week**

(From page 4)  
 feed 40 million people  
 other countries.  
 for Peace  
 next President, plans

to make greater use of our  
 \$9 billion stockpile of farm  
 surpluses to win friends for  
 the West in underdeveloped  
 countries in Asia, Africa  
 and South America.

The battle against hunger  
 in all parts of the world will  
 be one in which the United  
 States will have overwhelm-  
 ingly superior forces. Ameri-  
 ca's food supply and our  
 great capacity for produc-  
 tion are vital to our world  
 leadership.

The fact is we are not pro-  
 ducing food not at anywhere  
 near our capacity. Depart-  
 ment of Agriculture officials  
 tell us that, if necessary we  
 could almost immediately ex-  
 pand our production by 20  
 percent to 25 percent.

The time is near, I believe  
 when we will reverse our  
 farm policy emphasis from  
 discouraging food production  
 to encourage it for use in  
 strengthening the Free  
 World. It is in that field that  
 we have the greatest advan-

tage over the communist  
 countries.

Just as food from Ameri-  
 can farms was a big factor  
 in winning World War II, it  
 may be decisive in winning  
 the cold war between com-  
 munist and freedom. Hung-  
 er is the communists' most  
 powerful ally on three con-  
 tinents:

will use more trees than it  
 will produce Pennsylvanians  
 will buy about 3,200,000  
 Christmas trees this year.

As Maurice K. Goddard,  
 Pennsylvania's Secretary of  
 Forests and Waters has re-  
 marked.

"Most Christmas trees are  
 grown artificially, raised like  
 a crop of corn or wheat. Af-  
 ter two years in a nursery,  
 they are planted in fields  
 five feet apart. After the sec-  
 ond year in the field, they  
 are sheared every year in  
 order to make them compact  
 and shapely.

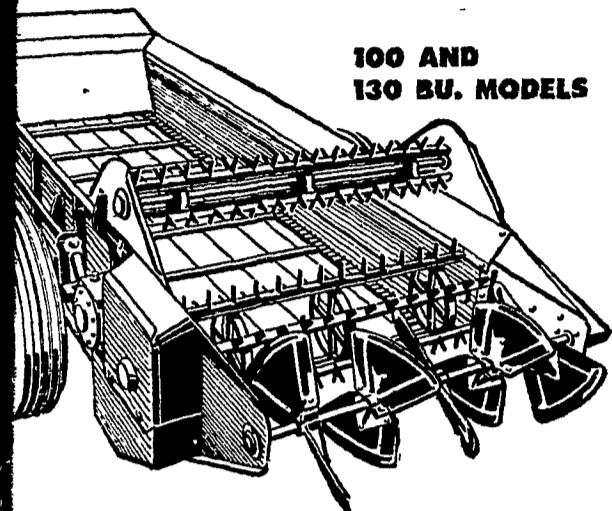

"If the grower can protect  
 them from the deer and in-  
 sects long enough, they even-  
 tually wind up in living  
 rooms across the land where  
 they do as important a job  
 as any tree—they light up  
 the eyes of a child"

Lancaster Farming advertis-  
 ing brings results.

**Deer**

(From page 1)  
 Despite this, however,  
 Pennsylvania still manages  
 to turn out more trees for  
 the Yuletide than any other  
 state. About 2,500,000 Penn-  
 sylvania trees will be avail-  
 able for sale this year and  
 they will be shipped to ev-  
 ery state in the nation and  
 South America. Even Haw-  
 aii is getting some of its  
 Christmas trees from the  
 Keystone State this year.

**FORD PTO  
 MANURE SPREADERS**

100 AND  
 130 BU. MODELS

**COMPARE, FEATURE BY FEATURE  
 FORD GIVES YOU MORE!**

■ Solid steel box frame with  
 treated wood box  
 ■ Roller chain drives  
 ■ Single lever control of 5 apron  
 beds  
 ■ Independent throw-out of  
 aprons or apron

■ Disc type friction overload  
 clutch  
 ■ "No arch" design for easiest  
 loading, less plugging  
 ■ Self-cleaning beater teeth and  
 replaceable paddle widespread  
 ■ Quick attaching "Snap-on"  
 PTO coupling

**COLLEGE STUDY SHOWS**

**VENT-O-MATIC**  
 Is "Most Efficient"!

There's a BIG DIFFERENCE in ventilating equip-  
 ment

Studies at CORNELL show that one 36-inch "Vent-O-  
 Matic", delivering 10,000 cu. ft. of air per minute (air  
 for 2500 average birds) costs \$47.30 per year for pow-  
 er, compared with \$78.15 for the next most efficient  
 system. Others cost from \$147.58 up to \$260.16 for  
 power on the same size job

**COULD YOU USE 8½ CENTS PER BIRD  
 EXTRA A YEAR?**

Total operating costs (including depreciation) put Vent-  
 O-Matic ahead by a wide margin. Prof. C. N. Turner  
 of Cornell says, "In a large house (8500 birds) the dif-  
 ference in operating cost could be as much as \$700 a  
 year . . . The efficiency of the motor and fan assembly  
 can be more important than the purchase price."  
 Before you buy, get an air-delivery rating . . . and  
 you'll buy "Vent-O-Matic". You'll like its smooth,  
 care-free performance. Birds like the uniform tem-  
 perature and humidity (Cornell data) in hot and cold  
 weather, without drafts or pockets

"Vent-O-Matic" is a complete ventilating system . . .  
 not just a fan. You get full automatic control, contin-  
 uous air movement, and close temperature regulation  
 as well as low first cost and the most economical oper-  
 ation. We engineer, install and guarantee

**Clean lots mean  
 FASTER GAINS**

Keep your feedlots CLEAN. That's the way to  
 fast, efficient beef gain; cleaner, higher milk pro-  
 duction. Put in an Allis-Chalmers scraper and  
 loader . . . then watch power take over . . . watch  
 how fast your increased livestock production will  
 pay for this rear-mounted blade.

See us for new, big-capacity Allis-Chalmers  
 chore power.

Ask us about the Allis-Chalmers plan to finance  
 your time payment of farm equipment.

**You Need A Good Feeding Program  
 to Produce Good Profits**

**Red Rose**  
 DAIRY FEEDS & SUPPLEMENTS

Start your herd on the Red Rose Cow-  
 Q-Lated Dairy Feeding Program. This pro-  
 gram was developed to pay off in the milk  
 pail—where it counts most—with extra  
 pounds of milk.

Red Rose Feeds are available in many  
 protein levels to balance any roughage on  
 your farm . . . supplements to mix with  
 your home grains . . . molasses and min-  
 eral mixtures . . . as well as milk replacer  
 and premium quality rations for calves.

Feed with confidence and see the difference better feeding  
 with Red Rose makes in profit!
