Keep Records and You'll Keep DEKALB LAYERS

LIVABILITY
From baby chicks to mature hens and through a long laying period, DeKalb livability is tops.

FEWER CULLS
DeKalb Chix are bred to require less culling because birds are almost identical genetically.

REDUCED FEED COSTS
Many poultry raisers have happily watched feed costs go down after switching to DeKalb layers.

HIGH INTERIOR QUALITY
Firm, upstanding whites and big, golden yolks give DeKalb eggs an appeal that whets appetites.

STRONG SHELLS
Fewer broken eggs in handling means more eggs to sell. DeKalb eggs are ideally shaped, too.

HIGH EGG PRODUCTION
Fewer seasonal laying slumps and a high rate of production result in larger, more consistent profits.

EGG SIZE THE MARKET PREFERS
Plenty large... but not too big... describes DeKalb eggs. They're just what the customer wants.

For years, DeKalb has employed some of the most skilled scientists in the world to work at producing the greatest layer in the world. Many spokesmen for the poultry industry believe this goal has been achieved. But, even if this is so, technical genetic work will never cease at DeKalb.

DEKALB AGRICULTURAL ASS'N., INC.
DEKALB, ILLINOIS
Commercial Producers and Distributors of DeKalb Seed Corn, DeKalb Chix and DeKalb Hybrid Sorghum.

A GREAT NAME BECAUSE OF GREAT RESULTS

Keystone Farmers

(From page 7)
ding one acre of tobacco and two steers. Robert expanded his broiler program to 7,000 birds per batch by renting facilities near his home farm. At present Robert is president of the local chapter FFA, as well as corresponding secretary of the county association. He is vice president of the Y.F.C. at his school.

BARRY H. SMITH

Barry, president of the Solanco chapter FFA is the 18-year old son of Mr. and Mrs. Harry B. Smith, New Providence R1.

Barry started his farming program in the freshman year with one Guernsey calf and a batch of 1,000 broilers. His farming program this year will include one purebred Guernsey heifer and one cow, 4,000 broilers, five acres of oats, and 25 acres of corn.

During his junior year, Barry was elected sentinel of the local chapter FFA. He is a member of the Solanco track team and has served

as assistant secretary of the Clearfield Methodist Church Sunday School.

WILLIAM R. MAULE

The first vice president of the Lancaster county FFA Bill is the son of Mr. and Mrs. Richard Maule, Quarryville R2.

An active musician as well as farmer, Bill has been a member of the Solanco band for four years, a member of the State FFA band for three years, a member of the Solanco dance band, pep band, brass choir, school orchestra and the Malta Band of Lancaster. In 1959, he was a member of the National FFA Band in Kansas City.

Bill is active in 4-H as well as FFA. He has held the offices of vice president and junior leader of the Kirkwood community club, and was secretary of the Southern Tractor Club. Bill is secretary of the local chapter FFA, and was assistant treasurer in the local chapter and county treasurer in 1959-'60.

Bill is on the junior varsity football and baseball track team and has served

TORNADO in Milk Tank CUTS CLEANING TIME

The girl above, with a touch of her fingers, controls a tornado... an automatic, cleansing tornado in a farm milk tank. Simply turning a control knob starts Zero's Spatter-Spray washing up for you. This exciting new labor-saver is attracting national attention.

Mechanically, it's simple. The variable speed motor turns the agitator at speed during cooling, at a faster speed for butterfat testing. When the tank is empty the agitator spins at top speed to wash, rinse and sanitize.

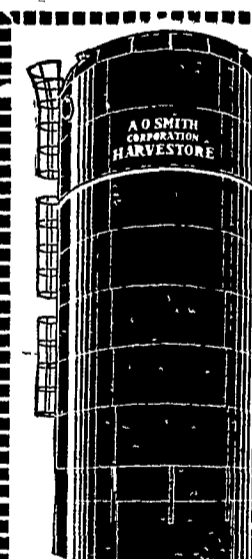

Exactly the same design features that have always made Zero's round vacuum tank easier to brush clean make it possible today to wash automatically. It's a logical development of Zero's Super Strainer, direct cow-to-tank hook-up, and other Zero labor-savers.

Zero offers you a tank with a full Send post card today for complete information.

FESCO SUPPLY COMPANY

1409 NORTH DUKE STREET YORK, PENNA.

Why limit yourself to one-crop storage...when HARVESTORE

stores **BOTH GRAIN and FORAGE**

- High Moisture Shelled Corn...
- High-Moisture Ground Ear Corn...
- High Moisture Grain Sorghum.
- Haylage Alfalfa, Clover, Timothy and Bromo Grass Mixtures...
- Oats as Haylage...other Forage Crops.

How HARVESTORE protects your feed from spoilage:

- Breather bag system keeps air from feed.
- Mastic sealer seals each roof and side wall section.
- Pressure testing after erection makes sure of perfect seal.
- Plus protection of exclusive "Glass-lined" storage.
- Only HARVESTORE'S true Oxygen-Free "Sealed" Storage makes it possible for you to store High-Moisture Grains OR Forage. That's why there is no short cut, no substitute, for HARVESTORE.
- Only HARVESTORE'S "Sweep Arm" Bottom Unloader can unload either grains or forage. No other bottom unloader can do that for you.
- LOOK AHEAD! Enjoy the "Versatility" of HARVESTORE. Don't settle for one-crop storage! Store Haylage in the Summer—feed it out—and then store High-Moisture Shelled or Ground Ear Corn in the Fall!
- Only HARVESTORE can do that for you!
