

PRUNE TREES

Most orchard men and landscapers plan to prune trees by the latter part of March because the dormant season is the best for this work. If shade trees are to be pruned or cut back the months of February and March are best suited for this work. Carl Bittner, extension pomologist, advises making clean cuts close to the main limb or trunk so that they will not hold water.

Seventy-eight percent of the farmers polled in a nationwide survey wanted less government farm support and fewer crop controls.

26th Annual Meeting Planned By County Farm Bureau Co-op

Four directors will be elected by the Lancaster Co. Bureau Cooperative Association at the 26th annual meeting of the co-op next week. Luncheon will be served at noon. Adjournment is scheduled for 3:00 p.m.

The meeting, scheduled to begin at 10 a.m. Wednesday, February 15, will be held in the Pequea Valley High School near Intercourse.

Features of the program will be music by the Pequea Valley High School students and an address by George G. Connor, Executive Vice President and General Manager

Fifty-six per cent of American's farm population is almost completely excluded from farm price supports. The large commercial farmers, representing only 27 per cent of the farm total, gets nearly 80 per cent of crop-price benefits.

Feed Your Home Grains and Save Money

But... for better feeding, mix them with

Red Rose

32% DAIRY SUPPLEMENT

Dairy men use high protein Red Rose 32% Dairy Supplement with their home-grown grains because it contains many milk making properties and nutrients necessary to the cow's diet not found in grain and roughages. When you use Red Rose 32% Dairy Supplement with your grains you can mix rations of your own choice to fit the roughage you have available on your farm. They will be dependable, palatable rations, too, because all the needed proteins, vitamins, minerals, growth factors, and other nutrients were included in the Red Rose Supplement
