

In Broiler Production . . .

as in other phases of the
poultry industry

SANITATION PAYS!

One of our customers, a grower with an excellent reputation, had increasingly poor results in one of his broiler flocks.

TROUBLES GALORE . . .

. . . SICKNESS

. . . AIRSAC

. . . CONDEMNATIONS, ETC., ETC.

Couldn't understand it, and for some time we could not either.

Finally some of the trouble was identified as being carried over from flock to flock by some dust left above the rafters and behind the insulation in his poultry house.

It took 300 MAN HOURS to perfectly clean this 20,000 capacity house. Everything gleamed as if brand new.

DID IT PAY?

JUDGE FOR YOURSELF!

Before the house cleaning: (20,000 bird flock)

Age	Weight	Conversion	Mortality	Rejects
9.2	3.14	2.57	11%	1153 head
10.0	3.66	2.46	6%	724 head

After house cleaning:

Age	Weight	Conversion	Mortality*	Condemnation deducted
9.1	3.86	2.28	3½%	88 lbs.

* some chick mortality due to epidemic tremors.

Moral of this story:

Good Sanitation (old fashioned cleanliness) and
Profits in Mass Poultry Meat Production go
Hand in Hand!

ional problem. It has become not a temporary but a chronic problem. It must be solved if we are to have a stable economy and national prosperity." The President readily conceded that he does not know the solution of the problem. But, he insisted, we have enough able men and good brains in this country to develop a sound and workable farm program.

Three Major Goals

Secretary Freeman, at his first conference with some 200 farm organization leaders in Washington, listed three major goals and the guiding principles "I intend to follow in our efforts to achieve those goals"

"First, we must insure the production of enough food and fiber to supply high standards for all Americans, now and in the years ahead. We must distribute our abundance so that all our people are well fed.

"Second, we must assure the efficient American family

farm the opportunity to achieve parity of income without exploiting either consumers or taxpayers. The government must provide to farmers, as it has provided to other groups in our economy, the tools by which they can achieve equality of economic opportunity

"Third, we must expand our programs to utilize our agricultural abundance as an instrument to encourage economic growth in underdeveloped areas of the world, as one of our greatest weapons for peace and freedom."

Rural Rhythms

FEEDING THE PHEASANT

by: Carol Dean Huber

A lovely Pheasant with golden sheen

Comes upon the wintry scene
Looking for a scrap of food
In the field beside the wood.

Snow has long been on the ground,

And no food can there be found,

Unless the farmer serves a treat

Of a little corn or wheat.

PLEUGER SUBMERSIBLE PUMPS

Low cost installation
Completely Automatic

YOUR BEST PUMP BUY

The Pleuger Submersible Pump Type AS/LD is the most efficient of all water pumps for economical water supply for farms, cottages and households. Easy to install. Needs no prime and will not freeze. No maintenance after installation. The advanced design assures the utmost in simplicity, performance and long life.

NEW IDEA LOADER

NEW IDEA No. 501
Loader fits standard size row crop and wide front end tractors.

- Seat-side trip lever for every tractor fitted
- Choice of mechanical or hydraulic bucket control for most tractor models
- Clean design gives clear, unobstructed view
- Short front overhang provides better rear wheel traction
- One man can put on or take off loader in 15 minutes

Look at this **NEW IDEA** before you buy!
