will not take steps to stop it.
Wage-Price Spiral

"One of the principal causes of the increase in the cost of living has been what economists refer to as 'the wage-price spiral.'

"I am absolutely convinced that neither Government, Congress nor business will take the steps that are necessary to stop the wage-price spiral which is causing prices to reach such absurd figures."

A congressional committee is now hearing testimony on the Administration proposal to raise the minimum wage from \$1 to \$1.25 an hour. It is not our purpose to discuss the pros and cons of this legislation... whether the advantages outweigh the disadvantages.

RURAL RHYTHMS

SPELLING LESSON

By: Carol Dean Huber

F—is for the Farm of course, and so it starts this rhyme:
A—is for the Animals you find there all the time,
R—is for the Rural Route, an address that is good,
M—is for the Market where the farmer sell us food;
I—is Independence - so easy here to find;
N—is for the Neighbors; they are good and kind,
G—stands for God, who makes the crops to grow
The word I'm spelling, I am sure, even children know.
Farming is the good life—the only life for me.
In the open country is the only place to be.

It is quite likely, however, that if enacted it will play a part in increasing the cost of living. For example, we are informed that in some cases the increased wage cost

will be greater than the employer's present profit. If this is true, the company will be forced to increase the prices of its products.

● D.H.I.A.

(From page 1)
766 pounds butterfat, with a 32 per cent fat.

A registered Guernsey in the herd of Raymond L. and Louise Witmer, Willow Street R1, was second with 14,950 pounds of milk testing 5.0 per cent for a total of 754 pounds of fat. Three other cows in the Witmer herd completed lactations with records of over 500 pounds of butterfat. Mary B had 611 pounds; Sue had 553 lbs. and Duet produced 524 lbs. during the first 305 days of lactation.

Only one other cow in the association produced over 700 pounds of butterfat during the 305 days ending in January. A registered Holstein in the herd of C. J. Kurtz made 704 pounds of fat in 17440 pounds of milk with a 4.0 test.

Twenty herds, in addition to the Kauffman and the Kreider and Akers herds, made an average of 50 or more pounds of butterfat per cow during the month.

Bruk VII Patsy Rose Lucifer owned by Isaac M. Brubaker, Lititz, produced 15,320 lbs. milk and 539 lbs. of butterfat in 305 days on twice daily milking as a 7-year-old.

Lancaster County

tomato grower sets record . . .

RAYMOND H. WITMER, Mount Joy R. D. #1, recorded the highest record of any Campbell Soup Company grower in the state of Pennsylvania for class #3 acreage (five to ten acres) during 1960.

YIELD RECORD

5.8 Acres Planted
27.59 Tons Yield Per Acre
Average Grade—71.5% US #1's,
24.3% US #2's, 4.2% Culls.

Harold Geib, Farm Bureau Fieldman, left, discusses this year's fertilizer program with Raymond Witmer, center, and son, Leslie.

FERTILIZER PROGRAM

Raymond plowed down 12 tons of cow manure per acre and 700 pounds of FARM BUREAU 0-20-20 Fertilizer which was applied with FARM BUREAU'S Modern Bulk Fertilizer Spreader Unit. He was especially impressed with the service and efficiency in the accurate application of bulk fertilizer for his tomato crop . . . he saved time, labor & money, too. Of course, Raymond will use Farm Bureau's Bulk Fertilizer Spreading Program again this year. Matter of fact, Leslie, Raymond's son, has also ordered bulk fertilizer from Farm Bureau for his tomato crop.

Farm Bureau BULK FERTILIZER SERVICE

We do the work for you. Farm Bureau will spread your fertilizer with modern, accurate equipment & trained personnel. Spreading is adjusted to fit your soil needs . . . at any rate per acre. By using high analysis plant food and a small spreading unit we avoid unnecessary packing of your soil.

START TODAY . . . PROFIT THE FARM BUREAU WAY!

Qualified FIELDMEN are anxious to serve and assist you in designing a PROFITABLE SOILS & CROPS PROGRAM.
