and Mrs Norman K. Reeser Bird-in-Hand R1, won the county demonstration contest with an explanation of wiring a plug
Stoner was runner-up in the demonstration contest. The two boys will represent the county at the district contest at Reading in July to try for a spot on the state team. Judges of the demonstration contest were John Hartman and John Reifsnnyder, both of PP&L.
In the project scoring, judge Joseph McCurdy, extension agriculture engineer, gave Stoner 29 of a possible 30 points and Reeser received

CURE - RIGHT HAYING...

fast

Haymaking has now become fast, easy and smooth the Allis-Chalmers way—with equipment for producing top quality on every farm, in every type of hay. For example, cracking *lightly*, just enough to break the wax coating on the hay stems, is the secret of Allis-Chalmers hay conditioning. Hay plants come through limp, but complete—not chopped or mangled.

LISTEN—no-chatter, pitmanless mowing is que... with smooth, non-stop rotary action. No Allis-Chalmers mowers for 1961 provide one piece, reinforced cutter bar design... heavy durability in the TWIN-WHEEL drive mechanism. New outer shoe loop divider speeds mowing a rank or tangled growth.

Note below the new Allis-Chalmers Hay Conditioner Hitch. This is the "wishbone" that trails a conditioner so surely and easily any need for a second tractor and operator is eliminated. Ideal for use with all 80-Series mowers, all styles, including trail-type.

SEE Cure-right Conditioning—note how the combination of rubber and steel rolls makes the difference, leaving stems soft and limber. Wax coating is cracked to allow 50 percent faster curing. Just enough action to release stem moisture without making the crop "silage." Leaves are cured naturally, on the stem.

Choice of three 80-Series mowers available—side-mounted, rear-mounted, or trail-type. Three models of Allis-Chalmers rakes—parallel bar 77, rear-mounted or ground drive; also No. 7 Pull-Type Side Delivery Rake and Tedder.

Ask us about the Allis-Chalmers plan to finance your time purchase of farm equipment.
