## NEW "DRIVE-IN" OLIVER CULTIVATORS

Are Quick to Attach

New "drive-in" mounted 2-row and 4-row cultivators for Oliver row crop tractors can be attached in a few minutes. Besides, they're interchangeable among the three tractor sizes, adjustable in row width from 28 to 42 inches.

Here's unusual flexibility, too. Gangs are provided for each half row to make cultivation of bedded, terraced or rough fields easier. Gangs can be raised independently for cultivating point rows, along fences or ditches... lift to 10 inches on the outside for fast transport, and always to the same height regardless of cultivating depth. Many special attachments available.
