

Club Congress
(From page 1)

Last year the club program was modified to follow the pattern of the national organization. Club congress is held for three days in June and judging and demonstration days are scheduled for August.

During club congress, mem-

bers will observe and serve on panels and seminars on the work of the state club. Speaking programs and other leadership activities will round out the program.

Two Lancaster County 4-H members who attended club congress last year have been invited back in "Club 30" to act as junior leaders for the organization. They

are Lois Ann Overgaard, of Lancaster R4, and Donald Trimble, Quarryville R1, but because of injuries sustained this week in an auto accident Miss Overgaard will be unable to attend.

Mrs. C. Warren Leininger, Denver R2 and W. nthrop Merriam, Assistant County Agent will chaperone the county contingent.

Attending from the Garden Spot will be:

Mary Jane Kreider, Manheim R3; Mary Jane Myers, Mt. Joy R1; Catherine Randler, New Providence R1; Carol Ann Krantz, New Providence R1; Mary Anne Johnson, Quarryville R2, Joanne Newcomer, Box 121 Mount Joy R1.

Yearbook

(From Page 1)

practical information for farmers, gardeners, seedsmen students and others on the seeds of hybrid corn, sorghum, rice, wheat, grasses, sugarbeets, other field crops, vegetables, flowers, and trees

A sampling of the scope of the book, which is described as "full of the wonder of life," is provided by the chapter titles:

"What Seeds Are and Do," "Light, Flowering, and the Production of Seed," "How Long Can a Seed Survive?," "Fundamental Procedures in Breeding Crops," "Plants Must Disperse Their Seeds," "Pollination of Seed Crops by Insects," "The Control of Weeds in Seed Crops," "Transporting, Handling, and Storing Seeds," "Policies on the Release of Seeds," "The Science of Seed Testing," "How We Get Seeds of Vegetables and Flowers," "Sometimes There Are Frauds in Seeds"

The Yearbook is distributed mainly by Members of Congress. It is also sold by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

In Mid pasture season, particularly, salt should be constantly available to cattle and other livestock because when craving salt they are likely to relish the bitter taste of poisonous weeds and suffer poisoning while seeking salty taste.

A brand new milking system — with many real advantages:

Separate vacuum systems — one for operating the pulsators, one for the milk line — insure against variations in the milk line caused by the pulsators.

Milk flows "downhill" to eliminate the

mixing with air. Automatic IN-PLACE washing — your choice of glass or stainless steel lines.

Find out now how little more it costs to get the very best in good cow milking.
