

## Poultry Center Broilers Still Climbing

Broilers averaged a cent a pound higher for the second week in a row at the Lancaster Poultry center when 24-head in five lots ranged from 15.3 to 17.3 for an average of 15.51 cents.

The lot of 2,600 leghorn brought 10.2 while one of 400 pullets made 19.0. Eight run roasters sold for 15.3 for the 500 in one lot and three lots of cockerels including 2,050 head sold 19 and 20 cents.

The June 22 sale offered 15 lots including 38,300 head and sold 11 lots and 10 head. The four lots of roasters not sold were bid to 18.2 and 19.0.

Following is the complete list with lot number, seller, breed in parenthesis, and age in weeks, days, buyer and price.

1. Weller, 10,000 WV, 8-6, Meader's Poultry, 154;

- Greider Leghorn Farm, 2600 L-F, 17 Mo. V. J. Koser Co., Inc., 10-

## Delmarva - Georgia Price Shows Some Strength

Delmarva reported prices of 14.50 to 15.2 on 883,100 head at farms during the 24-hour period ending 10:30 Friday morning. Live offerings during the period were generally ample for the decreased demand for processing poultry. Competition from southern points very keen.

Estimated slaughter for the week end is 760,000 head compared with the 868,000 head last week end.

The Delmarva broiler-feed ratio for the week ending on June 16 was up one point from the previous week. The ratio was 2.8 when broilers averaged 13.31 cents per pound and mash cost \$94.37 per ton.

## Fluid Milk Production Holds About Steady

Fluid milk production in the northeast deviated from the seasonal pattern and was reported at comparatively high levels. Supplies were more than ample and in some areas surplus cleared only with difficulty to manufacturing channels.

Bottling demand was irregular and ranged from light to good.

In the southeast production was reported steady and supplies fully ample for a good bottling demand. Surplus moved to cheese manufacturers and separators.

Wholesale selling price of

Tobacco hornworm — if not controlled, this pest can completely defoliate tobacco plants. USDA PHOTO

# TOBACCO GROWERS:

How to get long-lasting control of hornworms and all other major foliage insects with low-cost endrin

Endrin's quick-killing action and long-lasting effectiveness give you economical, long-term control of hornworms, flea beetles, tobacco budworms, grasshoppers, and cutworms. Here are the details:

APPLICATIONS of less than ½ pound of endrin per acre protect tobacco against major insects that cause severe damage to tobacco leaves and consequently cut into your profits.

Endrin is economical. One low-dosage endrin application lasts for days. This means that you make fewer applications. You save time and money.

### Where to get endrin

Your local insecticide dealer has endrin, as liquid and dust, under well-known brand names. Look for the name endrin on the label or in the ingredient statement. Shell Chemical Company, Agricultural Chemicals Division, 2299 Vauxhall Road, Union, N. J.

### TOBACCO GROWERS —

ENDRIN is available as a liquid, wettable powder or dust.
