### Crop Summary Harvest Slow, Growth Excellent

Poor harvesting condition, continued to plague Lancaster County farmers this week. With as much as 60 per cent er than normal. of the crop still standing in some areas, late in the week growers were harvesting some of the grain to keep it from slowed because of lack of going to waste. Reports from the Quarryville area indicate moisture and the corn crop some sprouting in the fields and farmers combining the needed warm days and nites grain even though it is high in moisture in mnay instances. With plenty of moisture to Grain in the north and eastern areas of the county appears make up growth lost from to be in somewhat better condition, but with much of the late planting and poor growacreage yet to be harvested.

### Inventiveness Is Urged By Sociologist

The Rural Sociological Sotiveness" among rural leaders to speed up needed social adjustment.

"Adjustments to new machines and devices for efficient and comfortable living take place more rapidly than adjustments to social changes," declared Macklin E. John, Society president and head of the Department of Agricultural Economics and Rural Socio'ogy at the Pennsylvania State University.

Dr John made the statement from a folder distributed nationwide to 7,000 leaders in agriculture and rural life-and nearly 700 members in 46 states and 40 forwas prepared by a committee on development of rural sociology

"Problems arise," he added, "when changes in certain areas of rural societysuch as schoo's, churches, and health agencies-require adjustments in other aspects of community life. Someimes these changes in basic (Turn to page 12)

FOR ANY FARM PURPOSE MADE THE FARMER'S WAY

411 W. Roseville Rd. Lancaster, Pa. Ph. Lanc. EX 3-3921

Here's a high production "Booster Feed" that will increase production levels of dairy and beef cattle!

# Red Rose RUMENATOR

This ration is an excellent booster teed or appetizer for dairy and beef animals of all ages Fortified with vitamins A, D2. and E, animal fat and minerals, Red Rese Rumenator supplies high levels of available energy to keep herds in top condition, maintain a natural vigor, and increase milk production. It's a "nutritionsaturated" complete dairy feed that gives an "energy and vitamin lift' to any dairy or beef feeding program. Try it, and you will agree with other dairymen that Red Rose Rumenster is "just the dairy feed you have been looking for."

- Improves appetites
- Improves milk product-
- Dairy cows stay at peak production longer Glossier haircoats, thin-
- ner skin Gets cows in better con-
- dition for calving
- Young stock grow faster -- are more vigorous
