## SHUTTLE CLUTCH MAGIC MEANS EXTRA PROFIT!

Watch this Allis-Chalmers crawler and 3/8-yard loader move in fast, pick up a big bite of material, and move out fast to load the truck, cutting seconds from every work cycle.

SHUTTLE clutch magic lets you reverse direction without foot clutching or gear shifting. You simply move a lever forward and back. And the SHUTTLE clutch is just one of the many benefits that make the H-3 and HD-3 the most profitable compact crawlers in the 6,000-lb class.

You also get independent control of steering clutches and brakes; "live" hydraulic systems; box-type, all-steel main frame; long, rugged track assembly; and gasoline or diesel power. Let us give you the facts!
