TOBACCO GROWERS...

Eliminate Hand Labor, Stop Suckering Damage

MH-30 when properly used will:

- Let you enjoy new freedom from suckering and hand labor
- Let you produce tobacco at a lower cost
- Increase the efficiency of the farm
- Produce good tobacco

A fine-mist spray of MH-30 on tobacco plants approximately 5 days after topping stops sucker growth before it starts, reduces damage to plants from hand suckering and saves up to 30 man-hours of tedious labor per acre

Why be old-fashioned...order your MH-30 from your farm dealer today and use it correctly:

1. Top and treat tobacco when it's in full bloom...or when 90% of the plants have begun to shed their first flowers
2. Use 1 pint per 1,000 plants
3. Use a fine-mist-type spray
4. Be sure to harvest your tobacco when it is ripe. Leaving an untreated row will help you in deciding when treated tobacco is ripe

SEE YOU AT THE FISHING HOLE THIS SUMMER rather than in the tobacco field sweating over a back-breaking hand-suckering job.

Sweet corn is the outstanding buy in fresh vegetables this week. There are many other good buys such as east ern grown round type potatoes, carrots, tomatoes, snap beans, peppers and eggplant. Most other salad type vegetables are good buys too. Wholesale prices for most of these vegetables are at the lowest point reached in many months. Cabbage and large Spanish-type onions are about the only exceptions, wearing temporarily higher price tags.

Local harvesting of fresh peaches places this item in the feature spotlight at the fruit counter. This is the season for canning and homemakers will find the popular Sun High, Truogem, Hale Haven, Golden Jubilee and South Haven varieties available now and well suited for this purpose. The good-cooking Rambo apple is in plentiful supply and has reached the point of maturity where it is good for eating fresh.

The outlook for meats is

63 County Girls Model Fashions In 4-H Show

Sixty-three girls modeled dresses they made themselves at the Lancaster County 4-H Roundup Tuesday.

basically unchanged from last week. Broiler-fryers, small turkeys, and fore-quarter cuts will offer the most economy this week-end. Fresh pork picnics will be good buys too and some stores will feature steaks and lamb at bargain prices to stimulate trade. Small sized eggs are a clear-cut consumer value and a very economical source of protein.

Fresh crab meat and scallops are currently best buys in seafood. Shrimp and lobster tails are quoting at higher prices. Small catches of fresh fish have exerted an upward pressure on prices.

Joyce Denlinger, field Dr., won first place for her light green wool dress worn with a fur coat and hat. Her accessories were brown fabric gloves, a ligator bag and shoes.

She is the daughter of Mr. and Mrs. Raymond Denlinger, and a member of the Estoga Valley Senior Club.

Joyce and the five winners go to Philadelphia Thursday to compete in the 13-county district 4-H sewing competition.

Barbara Gamble, second place winner, will be able to participate in the district competition next week ago she won a prize for her bread demonstration. Four-H representatives will attend a member conference.
