SELF-POLISHING WAX

Self polishing wax is a wa-
ter emulsion wax which dries
to a shiny finish It has no
cleaning action, reminds
Sanna Black, Penn State
home management extension
specialist. It tends to accum-
ulate in areas outside of the
traffic lanes and must be
scrubbed off at intervals to
avoid yellow patches Self-
polishing wax is not recom-
mended for wood floors that
are damaged by water

Advertisers will be glad
to have you mention Lancas-
ter Farming when answering
advertisements.
