GOOD INVESTMENT
Don't skimp on use of fertilizer, urges James H Eakin, extension agronomist, because soil fertility represents one of the best investments farmers can make. Those who try to save money by buying less fertilizer reduce their income faster than they cut out-of-pocket costs

Costs 40-60% Less to Feed Than Milk!

PIONEER VIG-R-CALF Milk Replacer

SAVES MILK... 50 lb. size saves 4 cans milk in 4 weeks.

EASY TO FEED... Just mix with warm water... STAYS MIXED!

INCREASES GROWTH... Calves average up to 2 lbs. per day gain in growth!

CONTROLS SCOURS... Scientific blending of quality ingredients and antibiotics helps you control scours!

SAVES MONEY... Costs 40-60% less to feed than milk!

Don't overlook the growth, health and money-saving benefits offered by VIG-R-CALF as a milk replacer for your calves. VIG-R-CALF is simple to prepare, easy to feed and grows calves faster for less. See us today for complete details on the PIONEER VIG-R-CALF Milk Replacer Program.

HARSH HYDRAULIC HOISTS

The 32 available models come to you with a wide range of lifting capacities ranging from 3/4 to 20 tons for your truck, pickup, or trailer. The smooth, trouble free action of a HARSH HOIST has a fast lifting time of from 12 to 160 seconds, which allows more time for actual hauling.

These hoists come to you at an average cost of only 16¢ a day as compared to the \$10-\$15 a day you now spend to manually unload your truck.

To design and build a light-weight, low-costing truck hoist suitable for all types of farm use, priced within the average farmer's budget was the aim of "Dud" Harsh when HARSH UNLIMITED MFG. CO. began operations. This hoist was built and is now in use throughout the nation.

The HARSH HYDRAULIC HOIST averages only \$328.52 (including Federal excise tax) and maintains a low taxable weight which averages 273 lbs. These economical hoists are built for either back or side dumping, depending upon your need.

Save costly time and eliminate back-breaking labor by unloading with a HARSH HYDRAULIC HOIST engineered for economical, speedy, and durable farm use.
