... fastest growing beef feed

Big sales increases in recent years prove Eastern States BEEFMIX the No. 1 choice of northeastern beef raisers. And for good reasons: You get faster growth ... heavier finishing weights ... herd uniformity. BEEFMIX with 32% protein is the prefer-

red growing and finishing supplement . . . contains stilbestrol plus balanced proteins, vitamins and minerals.

BEEFMIX gives you:
• 15% to 20% increased growth
• Up to 10% better feed efficiency

betes in humans he said.

Dwarf Beef

In other discussions at the conference, Dr. Ellis J. Croshaw, associate in anatomy

Lancaster Farming, Saturday, September 30, 1961—7

said experimentation with "snorter" dwarfs in beef cattle tends to indicate one of the major reasons for the high percentage of incidence in some herds is the breed-

ing of cattle for the short, compact animals.

Dr. Croshaw pointed to the record of 20 to 30 per cent incidence reported in some herds as a vast economic loss. He said the condition appears to be growing steadily worse, but many cattlemen are reluctant to discuss it or give reliable information on their breeding herds. He said the condition appears to be much more prevalent in the Angus and Hereford breeds than in the Shorthorn herds.

Research at the School of Veterinary Medicine is concerned with finding a test which will identify cows and bulls with the recessive genes which produce dwarf offspring, but Dr. Croshaw would make no estimate as to when such a test might be forthcoming.

Horse surgery and repair of bone fractures of race horses was discussed by Drs. Charles Raker

NEW HYBRIDS FROM P-A-G . . . Bred for modern performance...top yields!

Whether you feed, sell, or seal, you want modern, high-yielding hybrids! New hybrids from P-A-G are adapted to the needs of today's modern agriculture assuring you of top yields and top corn profits. Here's why:

- Uniform sizing means trouble-free planting—even stands.
 - Special fungicide coating protects against soil diseases.
 - Better insect and disease resistance keeps corn healthy.
 - Uniform ear placement and standability make picking easy.
 - High yields and high shellout lead to high corn profits.
- Talk to your P-A-G dealer soon about NEW P-A-G hybrids . . . choose from P-A-G's complete line of modern hybrids.

you save time and corn

with a McCORMICK® 2-MH CORN PICKER

- 1. Mount in only 1 1/2 hours**
Drive-in, 2-piece mounting saves hours of preparation time.
- 2. On-the-go snapping roll spacing**
Saves corn you've been missing, helps unplug rolls quickly, safely.
- 3. Cut greasing time**
Bank, or new centralized lubrication, slashes get-ready time.
- 4. 2 full feet of clearance**
Clear high trash, vines, hydraulically. Means fast, easy transport, too.
- 5. Get more ears**
Long, tapered gatherers, precise, on-the-go control of picker height helps get all the ears.
- 6. Cut shelling losses**
Grain-tight, rubber-flight first elevator, choice of snapping rolls, and gentle action saves kernels.
- 7. Husk cleaner**
Extra-big husking bed with corn saver handles all crop conditions. Choice of regular or Minnesota husking rolls.
